Parcel post convention between the United States and Gibraltar. Signed at Gibraltar December 7, 1914, and at Washington January 8, 1915; approved by the President January 16, 1915

December 7, 1914.
January 8, 1915.

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND GIBRALTAR POST OFFICES CONCERNING THE EXCHANGE OF PARCELS BY PARCEL POST BETWEEN THE UNITED STATES OF AMERICA AND GIBRALTAR.

Parcel post with Gibraltar. Preamble.

For the purpose of making better postal arrangements between the United States of America and Gibraltar, the Postal Administrations of the United States of America and Gibraltar, represented by the Postmaster General of the United States of America, and the Postmaster General of Gibraltar, have agreed as follows, as regards the establishment of a parcel post system of exchanges between the two countries:

ARTICLE I.

Scope of convention.

The provisions of this agreement relate only to parcels of mail matter to be exchanged by the system herein provided for, and do not affect the arrangements now existing under the Universal Postal Convention which will continue as heretofore; and all the agreements hereinafter contained apply exclusively to Mails exchanged under these articles, directly between the Office of New York, and such other Offices within the United States of America as may be hereafter designated by the Postmaster General of the United States and the Office of Gibraltar.

ARTICLE II.

Articles admitted to the mails.

There shall be admitted to the mails exchanged under this Agreement articles of merchandise and mail matter—except letters, other than old correspondence, post cards, other than unused pictorial or plain post cards, and written matter of all kinds that are admitted under any conditions to the domestic mails of the country of origin except that no packet may exceed 11 (Eleven) pounds in weight, (5 Kilogrammes), nor the following dimensions: Greatest length in any direction, three feet six inches (105 centimetres); greatest length and girth combined, six feet (180 centimetres); and must be so wrapped or enclosed as to permit their contents to be easily examined by Customs Officers and Postal Officials duly authorized to do so; and except that the following articles are prohibited:

Requirements.

Articles prohibited.

Publications which violate the copyright laws of the country of destination; opium, poisons, and explosive or inflammable substances; liquids, and those which easily liquefy; live or dead animals, except insects and reptiles when thoroughly dried; fruit and vegetables which easily decompose, and substances which exhale a bad odour; lottery tickets, lottery advertisements, or lottery circulars; all obscene or immoral articles; articles which in any way may damage or destroy the mails or injure the persons handling them. Arms, parts of firearms, ammunition, utensils of war, naval or military stores, unless special permission has been obtained. Articles the admission of which is not authorized by the Customs Laws or Regulations of either Country.

ARTICLE III.

Address and packing required.

Every parcel must bear the exact address of the addressee and must be packed in a manner adequate for the length of the journey and protection of its contents.

Letters not to accompany parcels.

A letter or communication of the nature of personal correspondence must not accompany, be written on, or enclosed with any Parcel. If such be found, the letter will be placed in the mails if separable, and if the communication be inseparably attached, the entire Parcel shall be rejected. If, however, any such Parcels should be forwarded inadvertently, the country of destination will collect upon the letter or letters double rates of postage, according to the Universal Postal Union Convention.

A parcel may, however, contain an open invoice in its simplest form.

No inclosure for other address.

No parcel may contain an enclosure which bears an address other than that borne by the parcel itself. If such a parcel is despatched, however, the country of destination, upon detection of the enclosed packages, may send them forward singly charged with new and distinct parcel post rates.

Disposition of prohibited parcels if received.
Ante, p. 1877.

If a parcel contravening any of the foregoing prohibitions or not conforming to the stipulations of Article II. be handed over by one Administration to the other, the latter shall proceed in the manner and with the formalities prescribed by its laws or regulations.

ARTICLE IV.

Exchanges.

The Parcels shall be exchanged by means of the Lines of steamers agreed upon and shall be subject to all Customs Duties in the country of destination and all Customs Regulations in force in that country for the protection of its Customs Revenues, and to the following rates of postage, which in all cases shall be prepaid fully by means of postage stamps of the country of origin:

Rates of postage. In United States.

In the United States for a parcel not exceeding one pound (455 grams) in weight 12 cents; and for each additional pound (455 grams) or fraction of a pound, 12 cents.

In Gibraltar.

In Gibraltar, for a parcel weighing not more than 3 pounds, 1*s*. 6*d*.; for a parcel weighing more than 3 pounds but not more than 7 pounds, 2*s*. 6*d*.; and for a parcel weighing more than 7 pounds but not more than 11 pounds, 3*s*. 6*d*.

ARTICLE V.

Customs declaration.
Post, p. 1881.

The sender of each parcel must make a custom declaration, in duplicate, upon a special form provided for the purpose (see Form 1. A annexed hereto) giving the address, a general description of the parcel, an accurate statement of the contents and value, date of posting and the senders signature and the place of residence, which declaration must accompany the parcel to destination. The Administrations decline all responsibilities for the correctness of the customs declaration.

Nonresponsibility for declarations.

Certificate of posting.
Post, p. 1882.

Either country may authorise the post office where the parcel is posted to deliver to the sender of the parcel at the time of posting a certificate of posting on a form (see Form 2 annexed).

ARTICLE VI.

Delivery.

The parcels shall be delivered to addressees at the Post Offices of address in the country of destination free of charge for postages; but the customs duties properly chargeable thereon shall be collected in accordance with the customs regulations of the country of destination. The country of destination may, at its option, levy and collect from the addressee for internal service and delivery a charge not exceeding 5 cents in the United States and 2½*d*. in Gibraltar on each single parcel of whatever weight.

ARTICLE VII.

The parcels shall be considered as a component part of the mails exchanged direct between the United States and Gibraltar, to be despatched by the Country of origin, at its cost, to the other, and by such means as it provides, but must be forwarded at the option of the despatching office either in boxes or baskets prepared especially for the purpose or in ordinary mail bags to be marked "PARCEL POST," and shall not contain any other articles of mail matter. The bags or other receptacles shall be securely sealed with wax or otherwise as may be mutually provided by regulations hereunder. Method of transportation.

Each country shall promptly return empty to the despatching office all bags or sacks; but the boxes or baskets used occasionally by either administration may be used by the other administration for return parcel post despatches. Return of empty receptacles.

Although articles admitted under this agreement will be transmitted as aforesaid between the exchange offices they should be so carefully packed as to be safely transmitted in the open mails of either country, both in going to the exchange office in the country of origin and to the office of address in the country of destination. Packing.

Each despatch of a parcel post mail must be accompanied by a descriptive list in duplicate of all the packages sent showing distinctively the list number of each parcel, the office of origin, the name of the addressee with address of destination, and the declared contents and value and must be enclosed in one of the boxes or bags of such despatch, (see Form 3 annexed hereunto). Descriptive list. *Post*, p. 1882.

ARTICLE VIII.

As soon as the mail shall have reached the office of destination, that office shall check the contents of the mail. Receipt of mail.

In the event of the parcel bill not having been received, a substitute shall at once be prepared. Substitute parcel bill.

Any errors in the entries on the parcel bill which may be discovered, should after verification, by a second officer, be corrected and noted for report to the despatching office on a form "VERIFICATION CERTIFICATE," which should be sent in a special envelope. Correction of errors.

If a parcel advised on the bill be not received, after the non-receipt has been verified by a second officer, the entry on the bill should be cancelled and the fact reported at once. Nonreceipt of parcel.

Should a parcel be received in a damaged condition or imperfect in any way, full particulars should be reported on the same form. Damaged parcels.

If no verification certificate or note of error be received, a parcel mail shall be considered as duly delivered, having been found on examination correct in all respects. Presumption of delivery.

ARTICLE IX.

Missent parcels shall be immediately returned to the despatching office of exchange. Attention shall be called to the error by means of a verification note. Missent parcels.

If a parcel cannot be delivered as addressed or is refused by the addressee, the sender shall be consulted through the administration of the country of origin as to its disposal. If within two months of the despatch of the notice of non-delivery the office of destination shall not have received instructions from the office of origin the parcel shall be treated as abandoned. Inability to deliver.

Parcels returned at the request of the sender or office of origin incur a charge for such return equal to the postage when first mailed which shall be collected from the senders on the return of the Parcels. Reforwarding, etc.

Parcels redirected from one address to another in the country of destination are subject to such additional charge as the domestic regulations of that country prescribe.

Perishable articles.

When the contents of a parcel which cannot be delivered are liable to deterioration or corruption, they may be destroyed at once, if necessary, or, if expedient, sold, without previous notice or legal formality, for the benefit of the right person, the particulars of such sale being notified by one post office to the other. The sum realised by the sale shall be used in the first place to defray the charges upon the parcel, and any balance shall be remitted to the office of origin to be paid to the sender.

Cancellation of duties.

The customs duties on parcels which have to be sent back to the country of origin or redirected to a third country shall be cancelled both in the United States and Gibraltar.

ARTICLE X.

Nonresponsibility for loss, etc.

Neither of the contracting Administrations will be responsible for the loss or damage of any parcel, consequently no indemnity can be claimed by the sender or addressee in either country.

ARTICLE XI.

Retention of fees, etc.

Each country shall retain to its own use the whole of the postages and delivery fees it collects on the said parcels, consequently this Agreement will give rise to no postage accounts between the two countries.

The foregoing clause, however, shall not preclude either office from proposing a system of accounts, or of insurance or registration of parcels, after some experience has been gained of the working of this Agreement; and if such arrangement be made the necessary modifications shall be carried out by mutual consent.

ARTICLE XII.

Application of domestic legislation.

The internal legislation of both the United States and Gibraltar shall remain applicable as regards everything not provided for by the articles herein contained.

Notification of laws applicable.

The Administrations shall communicate to each other from time to time the provisions of their laws or regulations applicable to the conveyance of parcels by Parcel Post, and shall furnish each other with a list of prohibited articles, but they do not on that account incur any responsibility whatever towards the Police, the Customs Authorities or the senders of Parcels.

Further regulations, etc.

They shall regulate the mode of transmission of these parcels, and fix all other measures of detail and order necessary for ensuring the performance of the service.

ARTICLE XIII.

Effect.

This Agreement shall come into operation on the first day of February 1915 and shall be terminable on a notice of six months by either party.

Questions considered.
Ante, p. 1918.

Dans une série de réunions tenues du 1 au 9 juillet 1913 la Conférence, après avoir examiné la question qui lui était soumise par le paragraphe 2 de l'article 23 de la Convention Internationale de l'Opium du 23 janvier 1912,

Deposit of ratifications.

I. a décidé que le dépôt des ratifications peut avoir lieu dès maintenant.

Further recommendations.

II. a adopté à l'unanimité la résolution suivante:

Désirant poursuivre, dans la voie ouverte par la Commission Internationale de Shanghaï de 1909 et par la Première Conférence de la Haye de 1912, la suppression progressive de l'abus de l'opium, de la morphine, de la cocaïne, ainsi que des drogues préparées ou dérivées de ces substances, et considérant plus que jamais la nécessité et le profit mutuel d'une entente internationale sur ce point, la 2ème Conférence Internationale de l'Opium

Notification to Austria-Hungary, Norway and Sweden.

1°.) émet le voeu que le Gouvernement des Pays-Bas veuille bien faire remarquer aux Gouvernements d'Autriche-Hongrie, de Norvège et de Suède, que la signature, la ratification, la préparation des mesures législatives et l'entrée en vigueur de la Convention constituent quatre phases distinctes qui permettent dès maintenant à ces Puissances de procéder à la signature supplémentaire.

En effet, il ressort des art. 23 et 24 qu'une période de 6 mois pourra s'écouler entre l'entrée en vigueur de la Convention et la rédaction des projets de lois, règlements et autres mesures prévues par la Convention. En outre, le 3ème alinéa de l'art. 24 permet aux Puissances Contractantes de s'entendre après ratification sur la date de l'entrée en vigueur des dites mesures législatives. D'ailleurs, on ne peut s'empêcher de faire remarquer que les difficultés prévues par l'Autriche-Hongrie, la Norvège et la Suède, en ce qui concerne leur législation, n'étaient pas inconnues aux Délégués des Puissances Signataires et ont même fait l'objet d'un examen approfondi de la part des 12 Puissances Contractantes. Presque toutes les Puissances Signataires se trouvent dans la même situation que les Gouvernements susmentionnés et n'ont pas encore élaboré tous les projets de lois prévus par la Convention;

Requesting signing by nonparticipating countries.

2°.) émet le voeu que le Gouvernement des Pays-Bas veuille bien communiquer aux Gouvernements de la Bulgarie, de la Grèce, du Monténégro, du Pérou, de la Roumanie, de la Serbie, de la Turquie et de l'Uruguay la résolution suivante:

"La Conférence regrette que certains Gouvernements aient refusé ou omis de signer jusqu'à présent la Convention. La Conférence est d'avis que l'abstention de ces Puissances entraverait de la façon la plus sérieuse les buts humanitaires poursuivis par la Convention. La Conférence exprime le ferme espoir que ces Puissances reviendront sur leur attitude ou négative ou dilatoire;"

Adhesion of Switzerland.

3°.) émet le voeu que le Gouvernement des Pays-Bas veuille bien faire observer au Gouvernement hélvétique qu'il est dans l'erreur en considérant sa coopération comme d'une valeur à peu près nulle. A l'encontre de ce qui est dit dans la lettre du Conseil Fédéral du 25 octobre 1912, la Conférence estime que la coopération de la Suisse serait de l'effet le plus utile tandis que son obstention compromettrait les résultats de la Convention. Quant à la question soulevée par le Conseil Fédéral concernant les attributions respectives des législations fédérales et cantonales, il est à noter que de semblables difficultés ont été déjà envisagées par la Première Conférence qui en a tenu compte dans la rédaction de la Convention;

Diplomatic cooperation.

4°.) invite les Gouvernements Signataires à charger leurs Représentants à l'étranger d'appuyer les démarches susindiquées de leurs collègues néerlandais;

Action if signatures not obtained.

III. a émis le voeu suivant: que dans le cas où la signature de toutes les Puissances invitées en vertu du paragraphe 1 de l'article 23 n'aurait pas été obtenue à la date du 31 décembre 1913, le Gouvernement des Pays-Bas invite immédiatement les Puissances Signataires à désigner des Délégués pour procéder à La Haye à l'examen de la possibilité de faire entrer en vigueur la Convention internationale de l'Opium du 23 janvier 1912.

Signatures.

En foi de quoi, les Délégués ont revêtu le présent Protocole de leurs signatures.

Fait à La Haye, le neuf juillet mil neuf cent treize en un seul exemplaire, qui restera déposé dans les archives du Gouvernement des Pays-Bas et dont des copies, certifiées conformes, seront remises par la voie diplomatique à toutes les Puissances tant Signataires que non Signataires.

PROTOCOLE DE CLÔTURE OF THE INTERNATIONAL OPIUM CONFERENCE.

Final protocol.

The International Opium Conference, proposed by the Government of the United States of America and convoked by the Government of the Netherlands, assembled at The Hague in the Palace of the Knights, December 1, 1911.

Governments represented.

The Governments, the enumeration of which follows, have taken part in the Conference, to which they had designated the Delegates hereafter named.

[Here follow names of Governments and Delegates.]

In a series of meetings held from the 1st of December, 1911, to the 23rd of January, 1912, the Conference determined upon the text of Convention hereto annexed:

The Conference has further expressed the following wishes:

Recommendations regulating use of mails.

I. The Conference is of the opinion that there is reason to draw the attention of the Universal Postal Union:

1° to the urgency of regulating the transmission by post of raw Opium;

2° to the necessity of regulating, so far as possible, the transmission by post of Morphine and Cocaine and their respective salts, and of the other substances contemplated by Article 14 of the Convention;

3° to the necessity of prohibiting the transmission of prepared Opium by the post.

Study of Indian hemp.

II. The Conference is of the opinion that it is advisable to study the question of Indian Hemp from the statistical and scientific standpoint, with a view to regulating its misuse, should the necessity

therefor make itself felt, by domestic legislation or by an international agreement.

In testimony whereof, the Plenipotentiaries have affixed their signatures to the present Protocol. Signatures.

Done at The Hague, the 23rd day of January, 1912, in a single copy, which shall remain deposited in the Archives of the Government of the Netherlands, and copies of which, certified and conforming thereto, shall be delivered through the diplomatic channel to all the Powers represented at the Conference.

FINAL PROTOCOL OF THE SECOND INTERNATIONAL OPIUM CONFERENCE—1913.

July 9, 1913.

The Second International Opium Conference, convoked by Government of the Netherlands in virtue of Article 23 of the International Opium Convention, met at The Hague, in the Palace of the Counts, July 1, 1913. Second Conference. *Ante*, p. 1935.

The Governments enumerated below took part in the Conference, for which they had designated the following-named delegates. Governments represented.

(Here follow names of Governments and delegates.)

In a series of meetings held from the 1st to the 9th the Conference after examination of the question put before it by paragraph 2 of Article 23 of the International Opium Convention of January 23, 1912— Questions considered. *Ante*, p. 1935.

I. Decided that ratifications may be deposited from this moment. Deposit of ratifications.

II. Unanimously adopted the following resolution:

RESOLUTION.

Desirous of following up in the path opened by the international commission of Shanghai of 1909 and the first conference of 1912 at The Hague, the progressive suppression of the abuse of opium, morphine, cocaine, as well as of drugs prepared with or derived from those substances, and deeming it more than ever necessary and mutually advantageous to have an international agreement on that point, the Second International Conference— Further recommendations.

1. Utters a wish that the Government of the Netherlands be pleased to call to the attention of the Governments of Austria-Hungary, Norway, and Sweden the fact that the signature, ratification, drawing up of legislative measures, and putting the convention into force constitute four distinct stages which permit of those powers giving their supplemental signature even now. Notification to Austria-Hungary, Norway, and Sweden.

Indeed, it is seen from articles 23 and 24 that a period of six months is allowed to run between the going into effect of the convention and the drawing up of the bills, regulations, and other measures contemplated in the convention. Furthermore, the third paragraph of article 24 gives the contracting powers the liberty to reach an agreement, after ratification, upon the date on which the said legislative measures shall go into effect. Besides we can not refrain from remarking that the difficulties foreseen by Austria-Hungary, Norway, and Sweden with respect to their legislation were not unknown to the delegates of the signatory powers and were subjected to

thorough consideration on the part of the twelve contracting powers. Nearly all the signatory powers are in the same situation as the above-mentioned Governments and have not yet elaborated all the bills contemplated by the convention.

Requesting signing by nonparticipating countries.

2. Utters the wish that the Government of the Netherlands be pleased to communicate to the Governments of Bulgaria, Greece, Montenegro, Peru, Roumania, Servia, Turkey, and Uruguay the following resolution:

"The conference regrets that some Governments have refused or neglected to sign the convention as yet. The conference is of opinion that the abstention of those powers would prove a most serious obstruction to the humane purposes aimed at by the convention. The conference expresses its firm hope that those powers will desist from their negative or dilatory attitude."

Adhesion of Switzerland.

3. Utters the wish that the Government of the Netherlands be pleased to point out to the Helvetic Government its error in deeming its cooperation to be of hardly any value. Contrary to what is said in the Federal Council's letter of October 25, 1912, the conference holds that Switzerland's cooperation would be most serviceable in its effect, whereas her abstention would jeopardize the results of the convention. As to the question raised by the Federal Council concerning the respective powers of the Federal and Canton Legislatures, it is to be noted that similar difficulties were already considered by the first conference, which took them into account in wording the convention.

Diplomatic cooperation.

4. Requests the signatory Governments to instruct their representatives abroad to uphold the above-indicated action of their Netherland colleagues.

Action if signatures not obtained.

III. Utters the wish that in case the signature of all the powers invited by virtue of paragraph 1 of article 23 shall not have been secured by the 31st of December, 1913, the Government of the Netherlands will immediately invite the signatory powers on that date to designate delegates to take up the question whether it is possible to put the International Opium Convention of January 23, 1912, into operation.

Signatures.

In faith whereof the delegates have affixed their signatures to the present protocol.

Done at The Hague, the ninth of July, one thousand nine hundred and thirteen, in one copy that shall remain deposited in the archives of the Government of the Netherlands and certified copies of which shall be delivered through the diplomatic channel to all the powers, whether or not signatory.

Fort Peck Indian Reservation, Mont. Unallotted agricultural, etc., lands in, opened to entry. Vol. 35, p. 561.

I, Woodrow Wilson, President of the United States of America, by virtue of the power and authority vested in me by the Act of Congress approved May 30, 1908 (35 Stat., 558), do hereby prescribe, proclaim and make known that all the nonmineral, unallotted, unreserved lands within the Fort Peck Indian Reservation, in the State of Montana, which have been classified under said Act of Congress into agricultural lands, grazing lands, and arid lands, which are not designated for irrigation by the Government, shall be disposed of under the general provisions of the homestead and desert land laws of the United States and of said Act of Congress, and be opened to settlement and entry, and be settled upon, occupied and entered in the following manner, and not otherwise:

Registration of applications.

1. All persons qualified to make a homestead or desert land entry for said lands may, on and after September 1, 1913, and prior to and including September 20, 1913, but not thereafter, present to James W. Witten, Superintendent of the opening, in person, or to some person designated by him, at the cities of either Glasgow, Great Falls, Havre, or Miles City, Montana, sealed envelopes containing their applications for registration, but no envelope must contain more than one application; and no person can present more than one application in his own behalf and one as agent for a soldier or sailor, or for the widow or minor orphan child of a soldier or sailor, as hereinafter provided.

Requirements.

2. Each application for registration must show the applicant's name, postoffice address, age, height and weight, and be sworn to by him at either Glasgow, Havre, Great Falls or Miles City, Montana, before some Notary Public designated by the Superintendent, and not otherwise.

Applications from soldiers and sailors.

3. Persons who were honorably discharged after ninety days' service in the Army, Navy or Marine Corps of the United States, during the War of the Rebellion, the Spanish-American War, or the Philippine Insurrection, or their widows or minor orphan children, may make their applications for registration either in person or through their duly appointed agents, but no person can act as agent for more than one such applicant, and all applications presented by agents must be signed and sworn to by them at one of the places named and in the

same manner in which other applicants are required to swear to and present their applications.

Drawings.

4. Beginning at 10 o'clock a. m. on September 23, 1913, at the said City of Glasgow, and continuing thereafter from day to day, Sundays excepted, as long as may be necessary, there shall be impartially taken and selected indiscriminately from the whole number of envelopes so presented such number thereof as may be necessary to carry into effect the provisions of this Proclamation, and the applications for registration contained in the envelopes so selected shall, when correct in form and execution, be numbered serially in the order in which they are selected, beginning with number one, and the numbers thus assigned shall fix and control the order in which the persons named therein may make entry after the lands shall become subject to entry.

Notice of successful applicants.

5. A list of the successful applicants, showing the number assigned to each of them, will be conspicuously posted and furnished to the press for publication as a matter of news, and a proper notice will be promptly mailed to each person to whom a number is assigned.

Presentation of applications to enter.

6. Beginning at 9 o'clock a. m., on May 1, 1914, and continuing thereafter on such dates as may be fixed by the Secretary of the Interior, persons holding numbers assigned to them under this Proclamation will be permitted to designate and enter the tracts they desire as follows:

Selections, etc.

When a person's name is called, he must at once select the tract he desires to enter and will be allowed ten days following date of selection to complete entry at the proper local land office. During that period of ten days, he must file his homestead or desert land application at the proper local land office, accompanying the same with one-fifth of the appraised value of the tract selected, and, if a homestead application, the usual filing fees and commissions. To save expense incident to an additional trip to the land and to return to the local land office, he may, following his selection, execute his application for the tract selected within the proper land district and file same in the proper local land office, where it will be held awaiting the necessary payments. In that event, the payment must be made within the ten days following the date of selection. Payments can be made only in cash or by certified checks on national and state banks and trust companies, which can be cashed without cost to the Government, or by postoffice money orders, made payable to the receiver of the proper local land office. These payments may be made in person, through the mails or any other means or agency desired, but the applicant assumes all responsibility in the matter. He must see that the payments reach the local office within the ten days allowed, and where failure occurs in any instance where the application has been filed in the local land office without payment, as herein provided for, the application will stand rejected without further action on the part of the local officers. In case of declaratory statements, allowable under this opening, the same course may be pursued, except that the filing fees must be paid within the ten days following date of selection, the party having six months after filing within which to complete entry. Soldiers or sailors or their widows or minor orphan children, making homestead entry of these lands must make payments of fees and commissions and purchase money as is required of other entrymen. The remaining four-fifths of the purchase money may be paid in five equal installments, at the end of one, two, three, four, and five years after the date of entry, unless the entry is sooner commuted, or unless final proof is sooner made, under a desert land entry. If commutation or final desert land proof is made, all the unpaid installments must be paid at that time. If any entryman fails to make any payment when it becomes due, all his former payments will be forfeited and his entry will be canceled. No person can select more than one tract or present

more than one application to enter or file more than one declaratory statement in his own behalf.

Forfeiture.

7. If any person fails to designate the tract he desires to enter on the date assigned to him for that purpose, or if, having made such designation he fails to perfect it by making entry or filing and payments as above provided, or if he presents more than one application for registration or presents an application in any other than his true name, he will forfeit his right to make entry or filing under this Proclamation.

Occupancy.

8. None of the lands opened under this Proclamation shall become subject to settlement and entry prior to 9 o'clock a. m., on June 30, 1914, except in the manner prescribed herein; and all persons are admonished not to make any settlement prior to that hour on lands not covered by entries or filings made by them under this Proclamation.

Undisposed of lands.

At 9 o'clock a. m., on June 30, 1914, all of the lands opened under this Proclamation which have not been entered or filed upon in the manner herein provided will become subject to settlement and entry under the general provisions of the homestead and desert land laws and the said Act of Congress.

Regulations.

9. The Secretary of the Interior shall make and prescribe such rules and regulations as may be necessary and proper to carry this Proclamation and the said Act of Congress into full force and effect.

The season is at hand in which it has been our long respected custom as a people to turn in praise and thanksgiving to Almighty God for his manifold mercies and blessings to us as a nation. The year that has just passed has been marked in a peculiar degree by manifestations

of His gracious and beneficent providence. We have not only had peace throughout our own borders and with the nations of the world but that peace has been brightened by constantly multiplying evidences of genuine friendship, of mutual sympathy and understanding, and of the happy operation of many elevating influences both of ideal and of practice. The nation has been prosperous not only but has proved its capacity to take calm counsel amidst the rapid movement of affairs and deal with its own life in a spirit of candor, righteousness, and comity. We have seen the practical completion of a great work at the Isthmus of Panama which not only exemplifies the nation's abundant resources to accomplish what it will and the distinguished skill and capacity of its public servants but also promises the beginning of a new age, of new contacts, new neighborhoods, new sympathies, new bonds, and new achievements of cooperation and peace. "Righteousness exalteth a nation" and "peace on earth, good will towards men" furnish the only foundations upon which can be built the lasting achievements of the human spirit. The year has brought us the satisfactions of work well done and fresh visions of our duty which will make the work of the future better still.

Thursday, November 27, 1913, appointed as a day of general thanksgiving.

NOW, THEREFORE, I, WOODROW WILSON, President of the United States of America, do hereby designate Thursday the twenty-seventh of November next as a day of thanksgiving and prayer, and invite the people throughout the land to cease from their wonted occupations and in their several homes and places of worship render thanks to Almighty God.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this twenty-third day of October in the year of our Lord one thousand nine hundred and thirteen and of the independence of the United States of America the one hundred and thirty-eighth.

Rules prescribed for measurement of vessels, Panama Canal.

Vol. 37, p. 562.

I, WOODROW WILSON, President of the United States of America, by virtue of the power and authority vested in me by the Act of Congress, approved August twenty-fourth, nineteen hundred and twelve, to provide for the opening, maintenance, protection and operation of the Panama Canal and the sanitation and government of the Canal Zone, do hereby prescribe and proclaim the "Rules for the Measurement of Vessels for the Panama Canal," which are annexed hereto and made a part of this proclamation.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Secretary of State.

RULES FOR THE MEASUREMENT OF VESSELS FOR THE PANAMA CANAL.

All vessels to present tonnage document at canal.

Article I. All vessels, American and foreign, except warships, including vessels of commerce and Army and Navy transports, colliers, supply ships, and hospital ships, applying for passage through the Panama Canal shall present a duly authenticated certificate stating the vessel's gross and net tonnage as determined by these rules. Vessels of commerce, Army and Navy transports, colliers, supply ships, and hospital ships without such certificate shall, before passing through the canal, or before being allowed to clear therefrom, be measured, and shall have their gross and net tonnage determined in accordance with these rules.

All warships, American and foreign, other than transports, colliers, supply and hospital ships, shall present duly authenticated displacement scale and curves stating accurately the tonnage of displacement at each possible mean draft.

Vessels designated as "supply ships" and "colliers."

It is to be understood that "supply ships" shall include Army and Navy ammunition ships, refrigerator ships, distilling ships, repair ships, submarine tenders, and destroyer tenders, as well as Army and Navy vessels used to transport general Army and Navy supplies; and that "colliers" shall include Army and Navy vessels used to transport coal or fuel oil.

RULES APPLYING TO VESSELS OF COMMERCE, ARMY AND NAVY TRANSPORTS, COLLIERS, SUPPLY SHIPS, AND HOSPITAL SHIPS.

GROSS TONNAGE.

What shall be included in gross tonnage.

Art. II. Gross tonnage as determined by these rules shall express the total capacity of vessels, i. e., the exact cubical contents of all spaces below the upper deck and of all permanently covered and closed-in spaces on or above that deck, excepting such spaces as may be hereinafter permitted as exemptions from measurement. Gross tonnage shall include not only all permanently covered and closed-in spaces which are or may be used for stowing cargo and stores or for providing shelter and other comfort for passengers or crew, but also such spaces as are used, or are intended to be used, in navigating and serving the vessel.

Only such spaces as are specifically mentioned in Article IV, below, shall be exempted from measurement. All other spaces shall be considered as closed-in and shall be included in gross tonnage.

What shall be considered permanently covered and closed-in spaces.

Art. III. By permanently covered and closed-in spaces on or above the upper deck are to be understood all those which are separated off by decks or coverings, or fixed partitions, and which, therefore, represent an increase of capacity that is or may be used for the stowage of cargo, or for the berthing and accommodation of

the passengers, the officers, or the crew. No break in a deck, nor any opening or openings in a deck or the covering of a space or in the partitions or walls of a space, nor the absence of a partition shall prevent a space from being measured and comprised in gross tonnage if the opening or openings in the deck, partition, or side wall can be closed in, or if the absent partition can be put in place, after admeasurement and the spaces thus closed in be thereby better fitted for the transport of goods or passengers.

In the case of a vessel having a "trunk" or "turret", the deck forming the covering of the trunk or turret shall be considered the upper deck, and all spaces below that deck within the trunk or turret shall be considered as covered and closed-in. The space within the turret or trunk shall be measured as are other between-deck spaces.

Spaces considered as "permanently closed-in" and spaces permitted to be exempted from measurement shall be determined solely by the provisions contained in these rules, and not by any definitions or provisions contained in the measurement rules or regulations of any country.

Spaces exempted from measurement and gross tonnage.

ART. IV. The following spaces shall be exempted from measurement and shall not be included in the gross tonnage, and no other spaces shall be exempted:

SECTION 1. Spaces on or above the upper deck not permanently covered or closed-in, or which may not be readily covered or closed-in. In the application of this rule it will be understood that—

(*a*) Spaces under decks or coverings having no other connection with the body of the ship than the stanchions necessary for their support are not spaces separated off, but are spaces permanently exposed to the weather and the sea and are not to be included in the gross tonnage.

(*b*) A space within a poop, forecastle, bridge house, or other "permanently covered and closed-in" superstructure or erection may be considered as not permanently covered or closed-in, and may consequently be excluded from tonnage, if the space is opposite an end opening which is without a coaming and has no headplates or planks and is not provided with means of closing, and which opening has a breadth equal to or greater than half the breadth of the deck at the line of the opening, and if the space opposite the opening can not be used to shelter other merchandise than cargo or stores that do not require protection from the sea. If the opening is fitted with a coaming, the space within it is to be included in the gross tonnage. This provision shall be so applied as to exempt from measurement only the space between the actual end opening and a line drawn parallel to the line or face of the opening at a distance from the opening equal to one-half the width of the deck at the line of the opening; provided, that any closed-in space between the open face and the line drawn parallel to it shall be measured. The remainder of the space within a poop, forecastle, bridge house, or other superstructure or erection shall be considered as available for the accommodation of cargo or stores, of passengers or of the ship's personnel, and shall be measured and included in the gross tonnage. (See Figs. 1, 2, and 3.)

Should the open space within a poop, forecastle, bridge house, superstructure, or erection between the end opening and a parallel line distant from the opening by half the breadth of the deck become, because of any arrangement, of less width than half the breadth of the deck, then only the space between the line of the end opening and a parallel line drawn through the point where the athwartship width of the open space within the poop, forecastle, bridge house, superstructure, or erection becomes equal to, or less than, half the breadth of the deck shall be exempted from measurement. (See Figs. 4, 5, 6, and 7.) The remainder of the space within the poop, forecastle, bridge house, superstructure, or erection is to be included in the gross tonnage.

When two erections extending from side to side of the ship are separated by an interval the fore-and-aft length of which is less than the least half breadth of the deck in way of such interval, then whatever be the breadth of the permanent end openings of the erections, the entire erections, less the interval separating them, shall be measured and included in the gross tonnage. (See Fig. 8.)

(*c*) In a poop, forecastle, side-to-side bridge house, or other "permanently covered and closed-in" superstructure or side-to-side erection the space directly in way of opposite openings, the height of which is at least 3 feet, in the side walls of the ship not provided with means of closing and corresponding to each other in the opposite walls of the ship shall be exempted. (See Figs. 9 and 10.)

SEC. 2. Spaces in way of opposite side openings at least 3 feet in height not provided with means of closing shall be exempted. In the case of a continuous deck with one or more deck openings (usually designated as tonnage openings) that may be so closed as to permit cargo or stores to be carried in the space under the deck, or under portions thereof, only the spaces under such a deck that are exactly in way of opposite openings at least 3 feet in height in the side walls of the ship not provided with means of closing and corresponding to each other in the opposite walls of the ship shall be exempted; and the remaining spaces under such a deck shall be measured and included in gross tonnage. In case the openings in the side walls of the ship are provided with means of closing, no portion of the space under such a deck shall be exempted. (Fig. 11.)

SEC. 3. The spaces framed in round the funnels and the spaces required for the admission of light and air into the engine rooms shall be exempted from measurement to the extent that such spaces are above the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck. A deck with one or more deck openings (usually designated as tonnage openings) that may be so closed as to permit cargo or stores to be carried in the space under the deck or portions thereof is to be considered as the upper deck, provided that no space beneath it abreast side openings is exempted under the provisions of section 2. There shall, however, be measured and included within gross tonnage the spaces situated within closed-in side-to-side erections on the upper deck, spaces framed in round the funnels and those required for the admission of light and air to the extent that such light and air and funnel spaces are below the deck or covering of the first or lowest tier of such side-to-side erections on the upper deck. There shall be exempted from the measurement of any superstructure or erection situated above the first or lowest tier of side-to-side erections on the upper deck such portion or portions thereof as are occupied by the spaces framed in round the funnels or by the spaces required for the admission of light and air into the engine rooms. Such exempted spaces must not be used for any other than their designated purpose and must be reasonable in extent.

SEC. 4. Space or spaces between the inner and outer plating of the double bottom of a vessel that are so inclosed and that have such openings as to make them usable only for water ballast shall be exempted from measurement; but such spaces within the double bottom as are or may be used for carrying cargo, stores, feed water, coal, or other fuel shall be measured and included in the gross tonnage.

SEC. 5. The cubical contents of hatchways shall be obtained by multiplying the length and breadth together and the product by the mean depth taken from the top of beam to the underside of the hatch. From the aggregate tonnage of the hatchways there shall be deducted one-half of 1 per cent of the vessel's gross tonnage, exclusive of hatchways, and only the remainder shall be added to the gross tonnage of the ship, exclusive of the tonnage of the hatchways.

SEC. 6. Companionways and companion houses shall be exempted when used solely as companionways or companion houses. When used as smoking rooms or for any other purposes than companionways or companion houses, the parts so used shall be measured and included in gross tonnage.

SEC. 7. Domes and skylights shall be exempt from measurement. When there is an opening in the floor of a superstructure immediately below a skylight, the exemption shall include the space between the skylight and the opening in the floor of the superstructure immediately under the skylight. The remainder of the superstructure shall be included in the measurement. The space, in addition to the skylight, that may be exempted by this rule is that indicated by A, B, C, D in the following drawing:

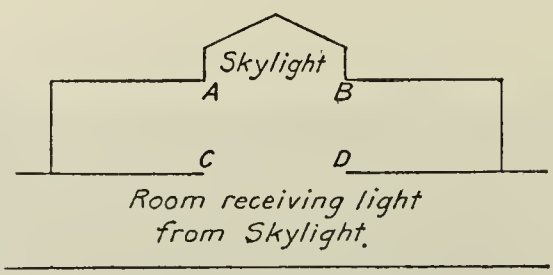

FIG. 12.—Open space under skylight.

Exempted spaces, if used, must be added to gross tonnage.

ART. V. Should a vessel at any time stow cargo of any kind, bunker coal or other fuel, or stores of any description in any portion whatever of any exempted space, except spaces exempted under Art. IV, Sec. 1, Par. (b) and spaces on open decks not permanently covered, or upon decks as defined in Art. IV, Sec. 1, Par. (a), of these rules, the whole of that space shall be measured and added to the gross tonnage, and the space shall not thereafter be exempted from measurement.

Spaces available for passengers not to be exempted.

ART. VI. Spaces for the use or possible use of passengers shall not be exempted from measurement except as stated in Article IV, section 1, paragraph (*a*).

In case of Army and Navy transports, colliers, supply ships, and hospital ships as defined in Article I, the term "passengers" shall include all officers, enlisted men, and other persons who are not assigned to duty and who are not duly inscribed on the ship's rolls.

Tonnage upon which charges are payable shall be increased by space occupied by cargo carried upon deck in spaces not permanently covered and closed in.

ART. VII. If any ship carries stores, timber, cattle, or other cargo in any space upon an open deck not permanently covered or in spaces exempted under Art. IV, Sec. 1, Pars. (a) and (b) of these rules, all tolls and other charges payable on the vessel's net tonnage shall be payable upon the vessel's net tonnage (as defined below in Articles X and XII) increased by the tonnage of the space occupied (at the time at which the tolls or other charges become payable) by the goods carried upon deck and not permanently covered or closed-in. The deck space occupied by the goods thus carried shall be determined at the time of the application of the vessel for passage through the canal and shall be deemed to be the space limited by the area occupied by the goods and by straight lines inclosing a rectangular space sufficient to include the goods.

The tonnage of the space occupied by the goods shall be ascertained in the manner prescribed below by Article IX, Rule I, for the measurement of poops or other closed-in spaces.

Nothing in this article shall in any manner affect the provisions of Articles II, III, and IV.

Measurement of the cubical contents of spaces may be by the Moorsom system in each country, or by the Moorsom system as prescribed in these rules.

ART. VIII. The cubical contents of the spaces included, by these rules, in gross tonnage may, in any country where the Moorsom system of measurement has been adopted, be ascertained under that system as applied in measuring vessels for national registry, provided that system is substantially similar to the Moorsom system of measurement as set forth in Article IX of these rules.

Rules for the measurement of contents of spaces.

ART. IX. In countries that have not adopted the Moorsom system of measuring spaces within vessels, the cubical contents of any of the spaces included in gross tonnage shall be ascertained according to the Moorsom system as set forth in the following rules: Rule I for the measurement of empty vessels; Rule II for laden vessels; Rule III for open vessels.

Rule for the measurement of empty vessels.

RULE I.—*For measuring the gross tonnage of empty vessels.*

SECTION 1. The length for the admeasurement of ships having one or more decks is taken on the tonnage deck, which is—

(*a*) The upper deck for vessels having one or two decks.

(*b*) The second deck from below for vessels having more than two decks.

Measure the length of the ship in a straight line along the upper side of the tonnage deck from the inside of the inner plank (average thickness) at the side of the stem to the inside of the midship stern timber or plank there, as the case may be (average thickness), deducting from this length what is due to the rake of the bow in the thickness of the deck and what is due to the rake of the stern timber in the thickness of the deck, and also what is due to the rake of the stern timber in one-third of the round of the beam; divide the length so taken into the number of equal parts required by the following table, according to the class in such table to which the ship belongs:

Class 1: Ships of which the tonnage deck is, according to the above measurement, 50 feet long or under, into 4 equal parts.

Class 2: Ships of which the tonnage deck is, according to the above measurement, above 50 feet long and not exceeding 120 feet, into 6 equal parts.

Class 3: Ships of which the tonnage deck is, according to the above measurement, above 120 feet long and not exceeding 180 feet, into 8 equal parts.

Class 4: Ships of which the tonnage deck is, according to the above measurement, above 180 feet long and not exceeding 225 feet, into 10 equal parts.

Class 5: Ships of which the tonnage deck is, according to the above measurement, above 225 feet long, into 12 equal parts.[1]

In the case of a break or breaks in a double-bottom for water ballast, the length of the vessel is to be taken in parts according to the number of breaks, and each part divided into a number of equal parts according to the class in the above table to which such length belongs.

SEC. 2. Then the hold being first sufficiently cleared to admit of the required depths and breadths being properly taken, find the transverse area of the ship at each point of division of the length or each point of division of the parts of the length, as the case may require, as follows: Measure the depth at each point of division, from a point at a distance of one-third of the round of the beam below the tonnage deck, or, in case of a break, below a line stretched in continuation thereof, to the upper side of the floor timber (upper side of the inner plating of the double bottom) at the inside of the limber strake, after deducting the average thickness of the ceiling which is between the bilge planks and the limber strake, subject, however, to the provisions of these rules, Article IV, section 4, regarding the measurement or exemption of double-bottom spaces. In the case of a ship constructed with a double-bottom for water ballast if the space between the inner and outer plating thereof is not available for the carriage of cargo, stores, feed-water, coal, or other fuel, then the depth shall be taken to be the upper side of the inner plating of the double-bottom, and that upper side shall, for the purposes of measurement, be deemed to represent the floor timber of the vessel. This rule for measuring the depth of the hold applies to double-bottom ships having top of double bottom *not* horizontal.

If the depth at the midship division of the length does not exceed 16 feet, divide each depth into 5 equal parts; then measure the inside horizontal breadth at each of the four points of division, and also at the upper point of the depth, extending each measurement to the average thickness in that part of the ceiling which is between the points of measurement. Number these breadths from above (i. e., numbering the upper breadth 1, and so on down to the fifth breadth); multiply the second and fourth by 4, and the third by 2; add these products together, and to the sum add the first breadth and the fifth. Multiply the quantity thus obtained by one-third of the common interval between the breadths, and the product shall be deemed the transverse area of the upper part of the section; then find the area between the fifth and lower point of the depth by dividing the depth between such points into four equal parts, and measure the horizontal breadths at the three points of division and also at the

[1] A greater number of divisions is permissible provided there be an even number of divisions.

upper and lower points, and proceed as before, and the sum of two parts shall be deemed to be the transverse area; but if the midship depth exceed 16 feet, divide each depth into 7 equal parts instead of 5, and measure, as before directed, the horizontal breadths at the six points of division, and also at the upper point of the depth; number them from above, as before; multiply the second, fourth, and sixth by 4, and the third and fifth by 2; add these products together, and to the sum add the first breadth and the seventh. Multiply the quantity thus obtained by one-third of the common interval between the breadths, and the products shall be deemed the transverse area of the upper part of the section; then find the lower part of the area as before directed, and add the two parts together, and the sum shall be deemed to be the transverse area.

This section applies to vessels with double bottoms, the tops of which have a rise from the middle line to each side. In vessels in which the top of the double bottom is horizontal, or in which there is no double bottom, the depths are to be divided by 4 or 6 (instead of 5 or 7), according as their midship depths do not or do exceed 16 feet respectively. In such cases no subdivision of the lower part is to be made.

Sec. 3. Number the transverse sections or areas respectively 1, 2, 3, etc., No. 1 being at the extreme limit of the length at the bow, or of each part of the length, and the last number at the extreme limit of the length at the stern or the extreme limit at the after end of each part of the length; then, whether the length be divided according to the table into 4 or 12 parts, as in classes 1 and 5, or any intermediate number, as in classes 2, 3, and 4, multiply the second and every even-numbered area by 4, and the third and every odd-numbered area (except the first and last) by 2; add these products together, and to the sum add the first and last, if they yield anything; multiply the quantity thus obtained by one-third of the common interval between the areas, and the product will be the cubical contents of the space, or cubical contents of each part if the ship is measured in parts under the tonnage deck. The tonnage of this volume is obtained by dividing it by 100, if the measurements are taken in English feet, and by 2.83 if the measurements are taken in meters. The multiplier 0.353 may be used instead of the divisor 2.83.

Sec. 4. If the ship has a third deck the tonnage of tho space between it and the tonnage deck shall be ascertained as follows: Measure in feet the inside length of the space at the middle of its height from the plank at the side of the stem to the lining on the timbers at the stern, and divide the length into the same number of equal parts into which the length of the tonnage deck is divided, as above directed; measure (also at the middle of its height) the inside breadth of the space at each of the points of division, also the breadth at the stem and the breadth at the stern; number them successively 1, 2, 3, etc., commencing at the stem; multiply the second and all the other even-numbered breadths by 4, and the third and all the other odd-numbered breadths (except the first and last) by 2; to the sum of these products add the first and last breadths; multiply the whole sum by one-third of the common interval between the breadths, and the result will give in superficial feet the mean horizontal area of the space; measure the mean height of the space, and multiply by it the mean horizontal area, and the product will be the cubical contents of the space; divide this product by 100 (or by 2.83 if the measurements are taken in meters) and the quotient shall be deemed to be the tonnage of the space, and shall be added to the tonnage of the ship ascertained as aforesaid; and if the ship has more than three decks, the tonnage of each space between decks above the tonnage deck shall be severally ascertained in the manner above described, and shall be added to the tonnage of the ship ascertained as aforesaid.

Sec. 5. If there be a break, a poop, or any other permanently covered or closed-in space on or above the upper deck (as defined above in Article III) the tonnage of such space shall be ascertained as follows: Measure the internal mean length of the space in feet, and divide it into two equal parts; measure at the middle of its height three inside breadths, namely, one at each end and the other at the middle of the length; then to the sum of the end breadths add four times the middle breadth, and multiply the whole sum by one-third of the common interval between the breadths; the product will give the mean horizontal area of the space; then measure the mean height and multiply by it the mean horizontal area; divide the product by 100 (or by 2.83 if the measurements are taken in meters) and the quotient shall be deemed to be the tonnage of the space.

Sec. 6. In measuring the length, breadth, and height of the general volume of the ship or that of the other spaces, reduce to the mean thickness the parts of the ceiling which exceed the mean thickness. When the ceiling is absent, or when it is not permanently fixed, the length and breadth shall be reckoned from the main frames of the ship, not from the web or belt frames. The same principle is to hold in the case of deck erections, that is, the breadth is to be reckoned from the main framing or stiffeners of the same, when ceiling is not fitted. When the main framing of the ship is curved or carried upward and inboard so as to permit the building of topside tanks or compartments outboard of the main framing, the breadth of the ship shall be reckoned from the outboard framing of such outboard tanks, thus including these tanks in the measurement.

RULE II.—*For measuring the gross tonnage of laden ships.*

SEC. 7. When ships have cargo on board, or when for any other reason their tonnage can not be ascertained by means of Rule I, proceed in the following manner:

Rule for the measurement of laden vessels.

Measure the length on the uppermost full-length deck from the outside of the outer plank at the stem to the aft side of the sternpost, deducting therefrom the distance between the aft side of the sternpost and the rabbet of the sternpost at the point where the counterplank crosses it. Measure also the greatest breadth of the ship to the outside of the outer planking or wales at the middle perpendicular. Then, having first marked on the outside of the ship on both sides thereof the height of the uppermost full-length deck at the ship's sides, girt the ship at the middle perpendicular in a direction perpendicular to the keel from the height so marked on the outside of the ship, on the one side, to the height so marked on the other side, by passing a chain under the keel; to half the girth thus taken add half the main breadth; square the sum, multiply the result by the length of the ship taken as aforesaid, then multiply this product by the factor 0.17 in the case of ships built of wood, and by the factor 0.18 in the case of ships built of iron or steel. The product will give approximately the cubical contents of the ship, and the tonnage can be ascertained by dividing by 100 or by 2.83, according as the measurements are taken in English feet or in meters.

SEC. 8. If there be a break, a poop, or other permanently covered and closed-in spaces (as defined above in Article III) on or above the uppermost full-length deck, the tonnage of such spaces shall be ascertained by multiplying together the mean inside length, breadth, and depth of such spaces and dividing the product by 100, or 2.83, according as the measurements are taken in English feet or meters, and the quotient so obtained shall be deemed to be the tonnage of the spaces, and shall be added to the other tonnage in order to determine the gross tonnage or total capacity of the ship

RULE III.—*For measurement of open vessels.*

SEC. 9. In ascertaining the tonnage of open ships, the upper edge of the upper strake of the shell plating is to form the boundary line of measurement, and the depths shall be taken from an athwartship line, extended from upper edge to upper edge of the said strake at each division of the length.

Rule for the measurement of open vessels.

DEDUCTIONS FROM THE GROSS TONNAGE TO ASCERTAIN THE NET TONNAGE.

(A) DEDUCTIONS FOR VESSELS NOT PROPELLED BY ENGINES.

ART. X. The following spaces (enumerated below in secs. 1 to 10 of this article) shall be deducted from the gross tonnage in order to ascertain the net tonnage of *vessels not propelled by engines*, and no other spaces shall be deducted. Unless otherwise expressly stipulated, these spaces shall be deducted whether located above or below the upper deck.

The volume or cubical contents of deducted spaces shall be ascertained in the manner specified in Article VIII or Article IX of these rules. The remainder, resulting from deducting from the total space included in gross tonnage the sum of the cubical contents of the spaces whose deduction from gross tonnage is permitted by these rules, shall be the net or register tonnage of vessels not propelled by engines and unrigged craft upon which tolls and other charges based upon tonnage shall be paid by vessels of commerce, Army and Navy transports, colliers, supply ships, and hospital ships (as defined in Art. I) for passage through the Panama Canal. One hundred cubic feet, or 2.83 cubic meters, shall constitute one gross or net ton.

Spaces for the use, or possible use, of passengers (as defined in Art. VI) shall not be deducted from the gross tonnage, except in so far as their deduction may be specifically provided for in the following sections (1 to 10) of this article of these rules.

Definition of stores and cargo carried on Army and Navy transports, colliers, supply ships, and hospital ships.

Spaces available for the stowage of stores (other than boatswain's stores) or cargo shall not be deducted from gross tonnage. In case of Army and Navy transports, colliers, supply ships, and hospital ships, as defined in Article I, the term "stores (other than boatswain's stores) or cargo" shall include, in addition to goods or cargo ordinarily carried as freight on vessels of commerce, the following articles:

On transports, food, stores, luggage, accouterments, and equipment for passengers.

On colliers, coal, coaling gear, and fuel oil not for the use of the colliers.

On supply ships, stores, supplies of all kinds, distilling machinery and distilled water (other than feed water stored in double-bottom compartments), machines, tools and material for repair work, mines and mining material, torpedoes, arms, and ammunition.

On hospital ships, food stores for passengers, medical stores, and hospital equipment.

Guns mounted on transports and supply ships, for defense of the ships, and ammunition required for use in such guns shall not be classed as cargo.

Deductions from gross tonnage allowed vessels not propelled by engines.

SECTION 1. The tonnage of the spaces or compartments occupied by, or appropriated to the use of, the officers and crew of the vessel shall be deducted. The term "officers and crew" shall include the personnel inscribed on the ship's rolls, i. e.,

the ship's officers, engineers, doctors, apothecary, sick attendants, sailors, apprentices, firemen, mechanics, and wireless operators; but shall not include clerks, pursers, stewards, and other members of the personnel provided by the ship for the care of the passengers. The spaces or compartments occupied by the officers and crew shall include their berthing accommodations, spaces provided for medical attention, mess rooms, ward and dressing rooms, bath and wash rooms, water-closets, latrines, lavatories, or privies for their exclusive use, and passageways exclusively serving these spaces.

SEC. 2. On hospital ships the spaces or compartments occupied by doctors, apothecary, and sick attendants duly inscribed on the ship's rolls, shall form part of the deduction under section 1 of this article. Spaces provided for the medical attention of the officers and crew of a hospital ship shall likewise be deducted; but spaces fitted for the transportation, or for the medical attention, of other persons than those duly listed in the ship's rolls shall not be deducted.

SEC. 3. The space occupied by the master's cabin shall be deducted.

SEC. 4. Cook houses, galleys, bakeries, laundries, and rooms for ice machines, when used exclusively to serve the officers and crew, and the condenser space, and distilling rooms, when used exclusively for condensing and distilling the water for the officers and crew, shall be deducted.

SEC. 5. Spaces used for the anchor gear, steering gear, and capstan; the wheel house, the dynamo rooms; the chart room used exclusively for keeping charts, signals, and other instruments of navigation; lookout houses; spaces for keeping electric searchlights and wireless telegraph appliances; and other spaces actually used in the navigation of the ship, shall be deducted. Such spaces upon vessels of commerce as may be devoted to the mounting of guns and to the stowage of ammunition for the guns thus mounted shall be deducted. The deduction of all spaces, other than those devoted to the mounting of guns, enumerated in this section must be reasonable in extent and be subject to the limitations stipulated below in Article XI.

SEC. 6. In case of a ship propelled wholly by sails, any space, not exceeding 2½ per cent of the gross tonnage, used exclusively for storage of sails shall be deducted.

SEC. 7. Spaces used exclusively for boatswain's stores shall be deducted. The deduction is not, however, to exceed 1 per cent of the gross tonnage in ships of 1,000 tons gross and upwards, nor more than 75 tons in any ship however large. In vessels from 500 to 1,000 tons gross the limit is fixed at 10 tons and in vessels from 150 to 500 tons at not more than 2 per cent of the gross tonnage. In vessels under 150 tons at not more than 3 tons.

SEC. 8. The space occupied by donkey engine and boiler shall be deducted if the donkey engine and boiler are connected with the main pumps of the ship, or if they are located in a permanently covered or closed-in structure on or above the upper deck.

SEC. 9. Passages and passageways shall be deducted if they serve deducted spaces exclusively for the officers and crew.

SEC. 10. Water-ballast spaces, other than spaces in the vessel's double bottom, shall be deducted if they are adapted only for water ballast, have only ordinary manholes for access and are not available for the carriage of cargo, stores, or fuel. If used to carry oil or other fuel, these spaces shall be regarded as part of the vessel's fuel space and shall not be subject to separate deduction.

The marking and use of exempted spaces shall be according to national laws.

ART. XI. Each of the spaces enumerated in Article X, sections 1 to 10, unless otherwise specifically stated, shall be subject to such conditions and requirements as to marking or designation and use or purpose as are contained in the navigation or registry laws of the several countries, but no space, other than fuel spaces deducted under Article XIII of these rules, shall be deducted unless the use to which it is to be exclusively devoted has been appropriately designated by official marking. In no case, however, shall an arbitrary maximum limit be fixed to the aggregate deduction made under Article X.

(B) DEDUCTIONS FOR VESSELS PROPELLED BY ENGINES.

ART. XII. The net or register tonnage upon which tolls and other charges based upon tonnage shall be paid by *vessels* of commerce, Army and Navy transports, colliers, supply ships, and hospital ships, as defined in Article I, *propelled by engines*, for passage through the Panama Canal, shall be the tonnage remaining after the following deductions have been made from the gross tonnage. One hundred cubic feet, or 2.83 cubic meters, shall constitute 1 gross or net ton. Vessels propelled partly by sails and partly by engines shall be classed as "vessels propelled by engines:"

Deductions from gross tonnage allowed vessels propelled by engines.

SECTION 1. The spaces specified above in Article X shall be deducted from the space included in gross tonnage to ascertain net tonnage in the case of vessels propelled by engines as in the case of vessels not propelled by engines.

SEC. 2. The space occupied by the engines, boilers, coal bunkers, fuel-oil tanks, double-bottom fuel and feed-water compartments, shaft trunks of vessels with screw propellers, spaces, within a closed-in side-to-side erection, that are framed in around the funnels or that are required for the introduction of light and air to the engine room to the extent that the framed-in spaces around the funnels and the light and air casings are located below the deck or covering of the first or lowest tier of such erections, if any, on the upper deck, as defined in Article IV, section 3, and are contained in closed-in side-to-side erections, spaces necessary for the proper working of the

engines, and spaces occupied by the donkey engine and boiler when situated within the boundary of the engine room or withiu the light and air casings above the engine room and when used in connection with the main machinery for propelling the vessel. When the shafts of screw propellers pass through open spaces not inclosed within tunnels, the spaces allowed in lieu of the tunnels must be of reasonable dimensions suitable for the vessel in question. When any portion of the engine or boiler rooms is occupied by a tank for fresh water, the space thus taken up shall not be deducted.

Donkey-engine and boiler spaces, when deducted according to Article XIV below, shall not be made a separate deduction.

The portion of the framed-in spaces around the funnels and of the light and air casings that extend above the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined in Article IV, section 3, and surrounding the said space or spaces are exempted from measurement and form no part of the space deducted under this section.

Sec. 3. The deductions made for propelling power, iucluding all those provided for in section 2 of this article, shall in no case exceed 50 per cent of the gross tonnage, except in case of tugs employed exclusively as tugs. In other respects the spaces enumerated in section 2 shall, except as otherwiso specifically stated, be subject to the requirements as to designation or marking and use or purpose contained in the navigation or registry laws of the several countries.

Sec. 4. The deductions made for propelling power provided for in section 2 of this article shall be made according to the provisions of Articlo XIII or of Article XIV, *as the owner of the vessel may elect.*

Sec. 5. Double-bottom compartments that are set aside to bo used exclusively for the stowage of feed water for the ship's boilers shall be deducted.

Propelling power deduction for vessels with bunkers having movable partitions, or having fuel-oil compartments that may be used to stow cargo or stores.

Art. XIII. In ships that do not have fixed bunkers, but transverse bunkers with movable partitions, with or without lateral bunkers, and in ships with fuel tanks or double-bottom fuel compartments which may be used to stow cargo or stores, measure the space occupied by the engine rooms, and add to it for vessels with screw propellers 75 per cent and for vessels with paddle wheels 50 per cent of such space.

By the space occupied by the engine rooms is to be uuderstood that occupied by the engine room itself and the boiler room, together with the spaces strictly required for the working of the engines and boilers, with the addition of the spaces taken up by shaft trunks (in vessels with screw propellers), the spaces which inclose the funnels and the casings necessary for the admission of light and air into the engine room to the extent that such spaces are located below the upper deck or below a deck with openings (usually designated as tonnage openings) which may be so closed as to permit the carriage of cargo or stores under the deck or a portion thereof, and donkey-engine and boiler spaces when the donkey engine and boiler are situated within the boundary of the main engine room or of the light and air casing above it and when they are used in connection with the main machinery for propelling the vessel. When the shafts of screw propellers pass through open spaces not inclosed within tunnels, the spaces allowed in lieu of tunnels must be of reasonable dimensions suitable for the vessel in question. When a portion of the space within the boundary of the engine or boiler rooms is occupied by a tank or tanks for fuel oil or fresh water, the space considered to be within the engine room shall be reduced by the space taken up by the tank or tanks for fuel oil or fresh water.

The cubical contents of the above-named spaces occupied by the engine room shall be ascertained in the followiug manner: Measure the mean depth of the space occupied by the engines and boilers from its crown to the ceiling at the limber strake; measure also three, or, if necessary, more than three, breadths of the space at the middle of its depth, taking one of such measurements at each end aud another at the middle of the length; take tho mean of such breadths; measure also tho mean length of the space between the foremost and aftermost bulkheads or limits of its length, excluding such parts, if any, as are not actually occupied by or required for the proper working of the engines and boilers. Multiply together these throe dimensions of length, breadth, and depth, and the product will be the cubical contents of the spaco below the crown. Then, by multiplying together the length, breadth, and depth, find the cubical contents of the space or spaces, if any, which are framed in for the machinery, for inclosing the funnels, or for the admission of light and air, and which are located between the crown of the engine room and the uppermost deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined in Art. IV, section 3. Add such contents, as well as those of the space occupied by the shaft trunk and by any donkey engine and boiler located within the boundary of the engine room or of the light and air casing above the engine room and used in connection with the main engines for propelling the ship, to the cubical contents of the space below the crown of the engine room; divide the sum by 100 or by 2.83, according as the measurements are taken in feet or meters, and the result shall be deemed to be the tonnage of the engine and boiler room aud shall be the tonnage taken as the basis for calculating the deduction for propelling power.

If in any ship in which the space for propelling power is to be measured the engines and boilers are in separate compartments, the contents of each compartment shall be measured separately in like manner, according to the above method; and the sum of the tonnage of the spaces included in the several compartments shall be deemed to be the tonnage of the engine and boiler rooms, and shall be the tonnage taken as the basis for calculating the deduction for propelling power.

Propelling power deduction for vessels with fixed bunkers, or having fuel-oil compartments that can not be used to stow cargo or stores.

ART. XIV. When vessels are fitted with fixed coal bunkers or with fuel-oil tanks or double-bottom fuel compartments which can not be used to stow cargo or stores, and when such bunkers, tanks, and fuel compartments have been certified by official marking to be spaces for the vessel's fuel, the deduction for propelling power may either be in accordance with the provisions of Article XIII above, or by deducting the actual tonnage of the spaces enumerated in Art. XII, Sec. 2 as measured in accordance with the following provisions, as the owner of the vessel may elect: Measure the mean length of the engine and boiler room, including the coal bunkers. Ascertain the area of three transverse sections of the ship (as set forth in the rules given in Articles VIII or IX for the calculation of the gross tonnage) to the deck which covers the engine. One of these three sections must pass through the middle of the aforesaid length, and the two others through the two extremities. Add to the sum of the two extreme sections four times the middle one, and multiply the sum thus obtained by the third of the distance between the sections. This product divided by 100 if the measurements are taken in English feet, or by 2.83 if they are taken in meters, gives the tonnage of the space measured. If the engines, boilers, and bunkers are in separate compartments, measure each compartment, as above set forth, and add together the results of the several measurements. The bunkers measured for fuel deductions shall include only those bunkers that are absolutely permanent, from which the coal can be trimmed directly into the engine room or stokehole, and into which access can be obtained only through the ordinary coal chutes on deck and from doors opening into the engine room or stokehole. Thwartship bunkers that can be in any way extended are not to be included in the measurements for deductions. When any portion of the engine or boiler rooms is occupied by a tank for fresh water, the space considered to be within the engine and boiler rooms shall be reduced by the space taken up by the tank for fresh water.

The contents of the shaft trunk shall be measured by ascertaining, and multiplying together, the mean length, breadth, and height. The product divided by 100, or 2.83, according as the measurements are taken in English feet or in meters, gives the tonnage of such space. When the shafts of screw propellers pass through open spaces not inclosed within tunnels, the spaces allowed in lieu of tunnels must be of reasonable dimensions suitable for the vessel in question.

The tonnage of the following spaces below the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined by Art. IV, section 3, is ascertained by the same method, viz: (*a*) The spaces framed in around the funnels. (*b*) The spaces required for the admission of light and air into the engine room. (*c*) The spaces, if any, necessary for the proper working of the engines. (*d*) Spaces occupied by the donkey engine and boiler when used in connection with the main engines for propelling the ship and when situated within the boundary of the engine room or of the casing above the engine room. (*e*) Fuel-oil tanks and double-bottom compartments fitted for the stowage of fuel oil.

No space may be deducted unless included in gross tonnage.

ART. XV. Under no circumstances shall any space which has not been included in the gross tonnage be deducted from gross tonnage.

Deducted spaces, if used, must be added to net tonnage.

The use of the whole or any portion of a deducted space, other than fuel spaces deducted under Article XIII, to stow cargo of any kind or stores other than boatswain's stores, or to provide passenger accommodations, shall be evidence that the entire space thus wholly or partially occupied is a part of the actual earning capacity of the ship, and the entire space shall be added to, and become a permanent part of, the net tonnage upon which Panama Canal tolls shall be collected.

Officials that may measure vessels and issue certificates.

ART. XVI. Only such officials as are authorized in the several foreign countries and in the United States to measure vessels and to issue tonnage certificates for purposes of national registry, and such other officials as are authorized by the President of the United States, or by those acting for him, to measure vessels and to issue Panama Canal tonnage certificates, shall have authority to measure vessels for Panama navigation or to issue Panama tonnage certificates.

Tonnage certificates issued under these rules may be corrected by officials at the Panama Canal.

ART. XVII. Tonnage certificates presented at the Panama Canal shall be subject to correction by the official or officials authorized by the President of the United States, or by those acting for him, to administer these measurement rules, in so far as may be necessary to make the certificates conform to these rules.

Panama Canal tonnage certificates

ART XVIII. The Panama Canal tonnage certificates issued by the measurement authorities of the United States and the several foreign countries shall correspond in substance and form to the sample certificate appended to these rules. Blank certificates in English will be furnished by the Secretary of War or the Governor of the Panama Canal upon request of the measurement authorities of foreign countries. The measurement authorities of any foreign country may also provide themselves with Panama Canal measurement certificates printed in English or in the language of the foreign country, provided such certificates strictly correspond in substance and form to the sample certificate appended to these rules.

RULES APPLYING TO VESSELS OF WAR, OTHER THAN ARMY AND NAVY TRANSPORTS, COLLIERS, SUPPLY SHIPS, AND HOSPITAL SHIPS.

Tolls upon warships shall be levied upon actual displacement upon arrival at canal.

ART. XIX. The toll on warships, other than Army and Navy transports, colliers, supply ships, and hospital ships, shall be based upon their tonnage of actual displacement at the time of their application for passage through the canal. The displacement tonnage of such warships shall be their displacement before the vessels have taken on such coal, fuel oil, stores, or supplies as may be purchased and taken on board after arrival at the canal for transit through the same.

"Warships" defined.

ART. XX. "Warships" in the meaning of Articles XIX to XXIV shall be considered to be all vessels of war, other than Army and Navy transports, colliers, hospital ships, and supply ships, as defined in Article I. Warships are vessels of Government ownership that are being employed by their owners for military or naval purposes.

For determination of draft, warships to anchor at station designated by governor of Panama Canal.

ART. XXI. Every warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in Art. I) upon applying for passage through the Panama Canal shall, in order to facilitate the ascertainment of its mean draft, be anchored or placed at such station or location as shall be designated by the Governor of the Panama Canal or by the officials authorized to act for him.

Commander of each warship to exhibit vessel's displacement scale and curves.

ART. XXII. The commander of every warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in Art. I), applying for passage through the Panama Canal shall exhibit for examination by the Governor of the Panama Canal or by the officials authorized to act for the Governor of the Panama Canal an official document containing the vessel's curve of displacement, its curves for addition to displacement for change of trim, and a scale so arranged that the displacement at any given mean draft is shown. Such document or documents shall be issued and be certified as correct by competent authorities of the Government to which the vessel belongs.

Actual displacement to be determined, and to be expressed in ton of 2,240 pounds.

ART. XXIII. The actual displacement of warships shall be determined from their official displacement scale aud curves, and shall be expressed in tons of 2,240 pounds. Should the displacement scale and curves of a warship show or state the vessel's displacement tonnage in metric tons of 2,204.62 pounds, the tonnage so expressed shall be multiplied by 0.9842 for the purpose of converting the tonnage into tons of 2,240 pounds.

Rule for determining displacement of a warship not supplied with displacement scale and curves.

ART. XXIV. Should any warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in Article I) apply for passage through the Panama Canal and, for reasons satisfactory to the Governor of the Panama Canal, not have on board the duly certified document or documents specified in Article XXII, the Governor of the Panama Canal, or the officials authorized to act for him, shall then determine the displacement of the vessel, using such reliable data as may be available, or by taking such dimensions of the vessel and using such approximate methods as may be considered necessary and practicable. The displacement tonnage so determined shall be considered to be the displacement of the vessel.

A PROCLAMATION

Fort D. A. Russell Wyo.

A PROCLAMATION.

War between Austria-Hungary and Servia, and Germany with Russia and France. Preamble.

Whereas a state of war unhappily exists between Austria-Hungary and Servia and between Germany and Russia and between Germany and France; And Whereas the United States is on terms of friendship and amity with the contending powers, and with the persons inhabiting their several dominions;

And Whereas there are citizens of the United States residing within the territories or dominions of each of the said belligerents and carrying on commerce, trade, or other business or pursuits therein;

And Whereas there are subjects of each of the said belligerents residing within the territory or jurisdiction of the United States, and carrying on commerce, trade, or other business or pursuits therein;

And Whereas the laws and treaties of the United States, without interfering with the free expression of opinion and sympathy, or with the commercial manufacture or sale of arms or munitions of war, nevertheless impose upon all persons who may be within their territory and jurisdiction the duty of an impartial neutrality during the existence of the contest;

And Whereas it is the duty of a neutral government not to permit or suffer the making of its waters subservient to the purposes of war;

Declaration of neutrality.

Now, Therefore, I, Woodrow Wilson, President of the United States of America, in order to preserve the neutrality of the United States and of its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in this behalf, and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that by certain provisions of the act approved on the 4th day of March, A. D. 1909, commonly known as the "Penal Code of the United States" the following acts are forbidden to be done, under severe penalties, within the territory and jurisdiction of the United States, to-wit:—

Vol. 35, pp. 1089–1091.

Acts forbidden in United States territory.

1. Accepting and exercising a commission to serve either of the said belligerents by land or by sea against the other belligerent.

2. Enlisting or entering into the service of either of the said belligerents as a soldier, or as a marine, or seaman on board of any vessel of war, letter of marque, or privateer.

3. Hiring or retaining another person to enlist or enter himself in the service of either of the said belligerents as a soldier, or as a marine, or seaman on board of any vessel of war, letter of marque, or privateer.

4. Hiring another person to go beyond the limits or jurisdiction of the United States with intent to be enlisted as aforesaid.

5. Hiring another person to go beyond the limits of the United States with intent to be entered into service as aforesaid.

6. Retaining another person to go beyond the limits of the United States with intent to be enlisted as aforesaid.

Rights of transients.

7. Retaining another person to go beyond the limits of the United States with intent to be entered into service as aforesaid. (But the said act is not to be construed to extend to a citizen or subject of either belligerent who, being transiently within the United States, shall, on board of any vessel of war, which, at the time of its arrival within the United States, was fitted and equipped as such vessel of war, enlist or enter himself or hire or retain another subject or citizen of the same belligerent, who is transiently within the United States, to enlist or enter himself to serve such belligerent on board such vessel of war, if the United States shall then be at peace with such belligerent.)

8. Fitting out and arming, or attempting to fit out and arm, or procuring to be fitted out and armed, or knowingly being concerned in the furnishing, fitting out, or arming of any ship or vessel with intent that such ship or vessel shall be employed in the service of either of the said belligerents.

9. Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

10. Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting, the force of any ship of war, cruiser, or other armed vessel, which at the time of her arrival within the United States was a ship of war, cruiser, or armed vessel in the service of either of the said belligerents, or belonging to the subjects of either, by adding to the number of guns of such vessels, or by changing those on board of her for guns of a larger calibre, or by the addition thereto of any equipment solely applicable to war.

11. Beginning or setting on foot or providing or preparing the means for any military expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territories or dominions of either of the said belligerents.

Naval vessels of belligerents.
Restrictions on, in territorial waters.

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the fifth day of August instant, and during the continuance of the present hostilities between Austria-Hungary and Servia, and Germany and Russia, and Germany and France, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States. If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead, or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limited for the

departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters. No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead, or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead, or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead, or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation. No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country; or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive, if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead, or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs.

Strict neutrality to be maintained.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in the said wars, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

Observance of laws enjoined.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

Military aid to b[illegible]erents prohibited.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent can not lawfully be originated or organized within its jurisdiction; and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and sell within the United States arms and munitions of war, and other articles ordinarily known as "contraband of war", yet they cannot carry such articles upon the high seas for the use or service of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

Contraband of war, etc.

Notice.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this government, who may misconduct themselves in the premises, will do so at their peril,

and that they can in no wise obtain any protection from the government of the United States against the consequences of their misconduct.

In Witness Whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the eighth

day of August instant, and during the continuance of the present hostilities no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States. If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead, or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limited for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters. No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead, or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead, or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead, or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation. No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country; or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive, if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead, or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs.

Strict neutrality to be maintained.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in the said wars, but shall

remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

Observance of laws enjoined.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

Military aid to belligerents prohibited.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent cannot lawfully be originated or organized within its jurisdiction; and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and sell within the United States arms and munitions of war, and other articles ordinarily known as "contraband of war", yet they cannot carry such articles upon the high seas for the use or service of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

Contraband of war, etc.

Notice.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this government, who may misconduct themselves in the premises, will do so at their peril, and that they can in no wise obtain any protection from the government of the United States against the consequences of their misconduct.

In Witness Whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the eighteenth day of August instant, and during the continuance of the present hostilities, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States. If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead, or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which

cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limited for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters. No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead, or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead, or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead, or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation. No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country; or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive, if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead, or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs.

Strict neutrality to be maintained.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in the said wars, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

Observance of laws enjoined.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

Military aid to belligerents prohibited.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent cannot lawfully be originated or organized within its jurisdiction; and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and

sell within the United States arms and munitions of war, and other articles ordinarily known as "contraband of war", yet they cannot carry such articles upon the high seas for the use or service of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

Notice.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this government, who may misconduct themselves in the premises, will do so at their peril, and that they can in no wise obtain any protection from the government of the United States against the consequences of their misconduct.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

9. Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

10. Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting, the force of any ship of war, cruiser, or other armed vessel, which at the time of her arrival within the United States was a ship of war, cruiser, or armed vessel in the service of either of the said belligerents, or belonging to the subjects of either, by adding to the number of guns of such vessels, or by changing those on board of her for guns of a larger calibre, or by the addition thereto of any equipment solely applicable to war.

11. Beginning or setting on foot or providing or preparing the means for any military expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territories or dominions of either of the said belligerents.

Naval vessels of belligerents.
Restrictions on, in territorial waters.

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the first day of September instant, and during the continuance of the present hostilities, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadstead, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-named vessel beyond the jurisdiction of the United States. If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead, or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limited for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters. No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead, or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead, or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead, or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation. No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsitence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country; or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to

receive, if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead, or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs.

Strict neutrality to be maintained.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in the said wars, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

Observance of laws enjoined.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

Military aid to belligerents prohibited.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent cannot lawfully be originated or organized within its jurisdiction; and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and sell within the United States arms and munitions of war, and other articles ordinarily known as "contraband of war", yet they cannot carry such articles upon the high seas for the use or service of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

Contraband of war, etc.

Notice.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this government, who may misconduct themselves in the premises, will do so at their peril, and that they can in no wise obtain any protection from the government of the United States against the consequences of their misconduct.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States to be affixed.

A PROCLAMATION

Day of prayer and supplication.
Preamble.

WHEREAS great nations of the world have taken up arms against one another and war now draws millions of men into battle whom the counsel of statesmen have not been able to save from the terrible sacrifice;

AND WHEREAS in this as in all things it is our privilege and duty to seek counsel and succor of Almighty God, humbling ourselves before Him, confessing our weakness and our lack of any wisdom equal to these things;

AND WHEREAS it is the especial wish and longing of the people of the United States, in prayer and counsel and all friendliness, to serve the cause of peace;

Sunday, October 4, 1914, designated as day of prayer and supplication for restoration of peace.

THEREFORE, I, WOODROW WILSON, President of the United State of America, do designate Sunday, the fourth day of October next, a day of prayer and supplication and do request all God-fearing persons to repair on that day to their places of worship there to unite their petitions to Almighty God that, overruling the counsel of men, setting straight the things they cannot govern or alter, taking pity on the nations now in the throes of conflict, in His mercy and goodness showing a way where men can see none, He vouchsafe His children healing peace again and restore once more that concord among men and nations without which there can be neither happiness nor true friendship nor any wholesome fruit of toil or thought in the world; praying also to this end that He forgive us our sins, our ignorance of His holy will, our wilfulness and many errors, and lead us in the paths of obedience to places of vision and to thoughts and counsels that purge and make wise.

A PROCLAMATION

Crow Indian Reservation, Mont. Preamble. Vol., 33, p. 361.

WHEREAS the Act of Congress directing the disposal of lands within a specified part of the Crow Indian Reservation, in the State of Montana, approved April 27, 1904, provides among other things:

> That when, in the judgment of the President, no more of the land herein ceded can be disposed of at said price, he may by proclamation, to be repeated at his discretion, sell from time to time the remaining land subject to the provisions of the homestead law or otherwise as he may deem most advantageous, at such price or prices, in such manner, upon such conditions, with such restrictions, and upon such terms as he may deem best for all the interests concerned;

Vol. 36, p. 2742; Vol. 37, p. 1759.

AND WHEREAS Proclamations issued on September 9, 1910, and August 9, 1912, under said Act, directed the sale of certain lands, all of which have not been disposed of;

AND WHEREAS, in my judgment, the undisposed of lands affected by said Proclamations can be most advantageously disposed of in the manner hereinafter prescribed;

Disposal of unsold, etc., ceded lands.

Now therefore, I, WOODROW WILSON, President of the United States of America, do hereby proclaim and direct that all the unsold, unentered, nonmineral, unreserved lands affected by said Act, which are not withdrawn under the Reclamation Act, shall be disposed of in the following manner and not otherwise:

Area of units and of fractional units.

1. *Units and fractional units.* The lands shall be disposed of in units and fractional units. Prior to May 15, 1915, the contiguous land subject to disposition in the north or south half of any section shall be deemed a unit if it makes as much as 240 acres and a fractional unit if it makes less than that area; and on and after that date such land in any section shall be deemed a unit if it makes as much as 480 acres and a fractional unit if it makes less than that area.

Applications to purchase and for special additional homesteads.

2. *Purchase and special additional homestead.* On and after October 10, 1914, any person owning less than 320 acres acquired under the provisions of the homestead laws may execute an application to purchase, and any person who has a valid homestead entry for less than 320 acres, may execute an application to enter as a special additional homestead, the land in the unit or fractional unit in the half section in which the major portion of the land so owned or entered is situated, and if such land is situated in equal parts in two or more such half sections the owner thereof or entryman may elect to purchase or enter any one of such units. Beginning May 15, 1915, when a section shall constitute the unit that may be acquired hereunder, any person who, prior to that date, shall have purchased or entered the land in any half section unit may purchase or enter the remaining contiguous land in such enlarged unit if then undisposed of.

Special homestead applications.

3. *Special homesteads.* After October 26, 1914, any person who is the head of a family or has arrived at the age of twenty-one years, is a citizen of the United States or has declared his intention to become such citizen, and is not the proprietor of more than 160 acres of land in the United States, may execute an application to enter as a special homestead the land in any unit or fractional unit, or the land in two or more contiguous fractional units if the combined area does not exceed approximately 320 acres; and on and after May 15, 1915, the land in any unit or fractional unit, or the land in two or more contiguous fractional units if the combined area does not exceed approximately 640 acres.

Parts excluded.

4. *Omission of part of unit or fractional unit.* No purchase, special additional homestead or special homestead will be allowed for part only of a unit or fractional unit.

Settlement before entry.

5. *Settlement before entry.* No right can be acquired under the provisions of this Proclamation by settlement before entry.

Price.

6. *Price of lands and terms.* The price of the lands shall be three dollars per acre if entered or purchased prior to September 15, 1915, and two dollars per acre if entered or purchased on or after that date. One-third of the price must be paid when entry or purchase is made. In the case of a purchase, the balance of the price must be paid in two equal payments, one year and two years thereafter, unless paid sooner, and, in the case of an entry, in two equal payments three years and four years thereafter, unless paid sooner. A purchaser may make payment of the unpaid installments at any time before they become due, and final certificate will issue, in the absence of objection, upon such payment being made. An entryman must make final payment when proof is submitted, if it is submitted before four years from the date of entry.

Terms of payment.

Applications.

7. *Execution and presentation of applications.* Applications to purchase or enter may be executed before the register or the receiver of the United States land office for the district in which the land is situated, or before a United States Commissioner, or a judge or a clerk of a court of record residing in the county in which the land is situated, or before any such officer who resides outside the county and in the land district and is nearest and most accessible to the land. All applications must be presented, with the required payment, to the register and receiver, in person, by mail, or otherwise.

8. *Disposition of applications to purchase and to make special additional homesteads.* All applications to purchase or to make special additional homesteads received by the register and receiver at or prior to nine o'clock a. m., standard time, on October 26, 1914, will be treated as filed simultaneously; and where there is no conflict such applications, if in proper form and accompanied by the required proofs and payments, will be allowed immediately thereafter; and, in the case of conflicts, where the applicants show that they are equally entitled to enter or purchase, the rights of the several parties shall be disposed of by a drawing, which will begin at ten o'clock a. m., standard time, on October 27, 1914, in the manner hereinafter provided for the disposition of conflicting applications to make special homesteads. Applications to purchase, or to make special additional homesteads, received after nine o'clock a. m. on October 26, 1914, will receive equal consideration with, but will not be preferred over applications to make special homesteads. Consideration of applications.

9. *Allowance of applications.* All applications received by the register and receiver after nine o'clock a. m., standard time, on October 26, 1914, and at or prior to nine o'clock a. m. on November 10, 1914, will be treated as filed simultaneously; and where there is no conflict such applications, if in proper form and accompanied by the required payments, will be allowed immediately thereafter. Where there are such applications conflicting in whole or in part, the right of the several applicants will be determined by a public drawing, which will begin at ten o'clock a. m., standard time, on November 11, 1914. The names of such applicants will be written on cards and each of these cards shall be placed in an envelope upon which there is no distinctive or identifying mark. These envelopes shall be thoroughly and impartially mixed, and then drawn, one at a time, by some disinterested person. As the envelopes are drawn, the cards shall be numbered, beginning with number 1, and fastened to the applications of the respective persons, which shall be the order in which the applications shall be acted upon and disposed of. If an applicant fails to secure any of the land applied for, his application shall be rejected. If he obtains part but not all of the land applied for, he shall, on or after November 11, 1914, be allowed thirty days from receipt of notice within which to notify the register and receiver whether to allow his application for the part obtained or to reject it in whole. If he does not notify the register and receiver within the time allowed, the application will be rejected in whole. If any other fractional unit or fractional units are subject to disposal and to inclusion in an entry with the land secured by such applicant, he may amend his application to include such lands, provided he is the prior applicant therefor and makes the necessary payment. Applications to purchase, to make special additional homesteads, and to make special homesteads, presented after nine o'clock a. m., standard time, on November 10, 1914, will be received and noted in the order of their filing and acted upon and disposed of after all applications presented at or before that time have been acted upon and disposed of. Status of applications. Drawings. Notification of action. Disposal of subsequent applications.

10. *Payments.* Each person presenting an application to purchase or enter must accompany such application with the required first payment. If an application is not allowed in whole, but is allowed in part, the moneys deposited in excess of the required payment will be returned; and if an application is rejected in whole the sum will be returned. The payment must be made in cash, by a certified check on a national or state bank or trust company which can be cashed without cost to the Government, or by a postoffice money order, made payable to the receiver of the land office. No other form of payment will be accepted. Payments.

No entry allowed under the provisions of this Proclamation shall be subject to commutation. The requirements as to residence must be strictly complied with, but the Secretary of the Interior may reduce the prescribed area of cultivation if proper application and sufficient showing are made to warrant such reduction. In the case of a special additional homestead, the residence of the entryman may be upon the land used as a base in the allowance thereof and nothing herein shall prevent such entryman from making full payment and acquiring title to the additional homestead when he can complete title to the base or the original entry.

Forfeitures.

12. *Forfeitures.* If an entryman fails to make any payment when it becomes due, or fails to comply with the requirements of the homestead law as herein modified, his entry will be canceled and all payments theretofore made on the purchase price of the land will be forfeited; and such payments will also be forfeited if the entry is canceled for any other reason and repayment is not authorized under the law.

Re-entry of restored lands.
Vol. 33, p. 360.

13. *Lands re-entered.* If any entry heretofore made for nonmineral lands under the provisions of the Act of April 27, 1904, supra, or if any entry or purchase made under the provisions of this Proclamation is canceled, the land may be re-entered or purchased at the price at which it was formerly entered or purchased and not otherwise.

Regulations.

14. *Forms, rules and regulations.* The Secretary of the Interior is hereby authorized to make and prescribe such forms, rules and regulations as may be necessary to carry the provisions of this Proclamation into full force and effect.

A PROCLAMATION.

Thanksgiving Day, 1914.
Preamble.

It has long been the honoured custom of our people to turn in the fruitful autumn of the year in praise and thanksgiving to Almighty God for his many blessings and mercies to us as a nation. The year that is now drawing to a close since we last observed our day of national thanksgiving has been, while a year of discipline because of the mighty forces of war and of change which have disturbed the world, also a year of special blessing for us.

It has been vouchsafed to us to remain at peace, with honour, and in some part to succour the suffering and supply the needs of those who are in want. We have been privileged by our own peace and self-control in some degree to steady the counsels and shape the hopes and purposes of a day of fear and distress. Our people have looked upon their own life as a nation with a deeper comprehension, a fuller realization of their responsibilities as well as of their blessings, and a keener sense of the moral and practical significance of what their part among the nations of the world may come to be.

The hurtful effects of foreign war in their own industrial and commercial affairs have made them feel the more fully and see the more clearly their mutual interdependence upon one another and has stirred them to a helpful cooperation such as they have seldom practiced before. They have been quickened by a great moral stimulation. Their unmistakable ardour for peace, their earnest pity and disinterested sympathy for those who are suffering, their readiness to help and to think of the needs of others, has revealed them to themselves as well as to the world.

Our crops will feed all who need food; the self-possession of our people amidst the most serious anxieties and difficulties and the steadiness and resourcefulness of our business men will serve other nations as well as our own.

The business of the country has been supplied with new instrumentalities and the commerce of the world with new channels of trade and intercourse. The Panama Canal has been opened to the commerce of the nations. The two continents of America have been bound in closer ties of friendship. New instrumentalities of international trade have been created which will be also new instrumentalities of acquaintance, intercourse, and mutual service. Never before have the people of the United States been so situated for their own advantage or the advantage of their neighbours or so equipped to serve themselves and mankind.

Thursday, November 26, 1914, appointed as a day of general thanksgiving.

Now, THEREFORE, I, WOODROW WILSON, President of the United States of America, do hereby designate Thursday the twenty-sixth of November next as a day of thanksgiving and prayer, and invite the people throughout the land to cease from their wonted occupations and in their several homes and places of worship render thanks to Almighty God.

Unlawful assemblages in Arkansas. Preamble.

WHEREAS by reason of unlawful obstructions, combinations and assemblages of persons, it has become impracticable in the judgment of the President to enforce by the ordinary course of judicial proceedings the laws of the United States within the State of Arkansas and especially within the Western Federal District and in the neighborhood of the towns of Hartford, Midland and Fort Smith in said district;

AND WHEREAS for the purpose of enforcing the faithful execution of the laws of the United States and protecting property in the charge of the courts of the United States, the President deems it necessary to employ a part of the military forces of the United States, in pursuance of the statute in that case made and provided;

Warning persons engaged in unlawful obstructions of the laws, etc., to disperse.

NOW, THEREFORE, I, Woodrow Wilson, President of the United States, do hereby admonish all persons who may be or come within the state, district or towns aforesaid against doing, countenancing, encouraging or taking any part in such unlawful obstructions, combinations and assemblages, and I hereby warn all persons in any manner connected therewith to disperse and retire peaceably to their respective abodes on or before twelve o'clock noon of the sixth day of November instant.

Offenders regarded as public enemies.

Those who disregard this warning and persist in taking part with a riotous mob in forceably resisting and obstructing the execution of the laws of the United States or interfering with the functions of the Government or destroying or attempting to destroy property in the custody of the courts of the United States or under its direction can not be regarded otherwise than as public enemies.

Duty of troops, etc.

Troops employed against such combinations and assemblages of persons will act with all the moderation and forbearance consistent with the accomplishment of their duty in the premises; but all citizens must realize that, if they mingle with or become a part of such riotous assemblages, there will be no opportunity for discrimination in the methods employed in dealing with such assemblages. The only safe course, therefore, for those not intentionally participating in such unlawful procedure is to abide at their homes or, at least, not to go or remain in the neighborhood of such riotous assemblages.

In testimony whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

War between Great Britain and Turkey. Preamble.

WHEREAS a state of war unhappily exists between Great Britain and Turkey; And Whereas the United States is on terms of friendship and amity with the contending powers, and with the persons inhabiting their several dominions;

And Whereas there are citizens of the United States residing within the territories or dominions of each of the said belligerents and carrying on commerce, trade, or other business or pursuits therein;

And Whereas there are subjects of each of the said belligerents residing within the territory or jurisdiction of the United States, and carrying on commerce, trade, or other business or pursuits therein;

And Whereas the laws and treaties of the United States, without interfering with the free expression of opinion and sympathy, or with the commercial manufacture or sale of arms or munitions of war, nevertheless impose upon all persons who may be within their territory and jurisdiction the duty of an impartial neutrality during the existence of the contest;

And Whereas it is the duty of a neutral government not to permit or suffer the making of its waters subservient to the purposes of war;

Declaration of neutrality.

Now, Therefore, I, Woodrow Wilson, President of the United States of America, in order to preserve the neutrality of the United States and of its citizens and of persons within its territory and jurisdiction, and to enforce its laws and treaties, and in order that all persons, being warned of the general tenor of the laws and treaties of the United States in this behalf, and of the law of nations, may thus be prevented from any violation of the same, do hereby declare and proclaim that by certain provisions of the act approved on the 4th day of March, A. 9. Issuing or delivering a commission within the territory or jurisdiction of the United States for any ship or vessel to the intent that she may be employed as aforesaid.

10. Increasing or augmenting, or procuring to be increased or augmented, or knowingly being concerned in increasing or augmenting, the force of any ship of war, cruiser, or other armed vessel, which at the time of her arrival within the United States was a ship of war, cruiser, or armed vessel in the service of either of the said belligerents, or belonging to the subjects of either, by adding to the number of guns of such vessels, or by changing those on board of her for guns of a larger calibre, or by the addition thereto of any equipment solely applicable to war.

11. Beginning or setting on foot or providing or preparing the means for any military expedition or enterprise to be carried on from the territory or jurisdiction of the United States against the territories or dominions of either of the said belligerents.

Naval vessels of belligerents. Restrictions on, in territorial waters.

And I do hereby further declare and proclaim that any frequenting and use of the waters within the territorial jurisdiction of the United States by the armed vessels of a belligerent, whether public ships or privateers, for the purpose of preparing for hostile operations, or as posts of observation upon the ships of war or privateers or merchant vessels of a belligerent lying within or being about to enter the jurisdiction of the United States, must be regarded as unfriendly and offensive, and in violation of that neutrality which it is the determination of this government to observe; and to the end that the hazard and inconvenience of such apprehended practices may be avoided, I further proclaim and declare that from and after the fifth day of November instant, and during the continuance of the present hostilities, no ship of war or privateer of any belligerent shall be permitted to make use of any port, harbor, roadsted, or waters subject to the jurisdiction of the United States from which a vessel of an opposing belligerent (whether the same shall be a ship of war, a privateer, or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the jurisdiction of the United States. If any ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead, or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead, or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair shall continue within such port, harbor, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer, or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limited for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four

hours between such departure and that of any ship of war, privateer, or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead, or waters. No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead, or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead, or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead, or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation. No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead, or waters within the jurisdiction of the United States, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country; or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive, if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead, or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs.

Strict neutrality to be maintained.

And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in the said wars, but shall remain at peace with all of the said belligerents, and shall maintain a strict and impartial neutrality.

Observance of laws enjoined.

And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof, and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf.

Military aid to belligerents prohibited.

And I do hereby warn all citizens of the United States, and all persons residing or being within its territory or jurisdiction that, while the free and full expression of sympathies in public and private is not restricted by the laws of the United States, military forces in aid of a belligerent cannot lawfully be originated or organized within its jurisdiction; and that, while all persons may lawfully and without restriction by reason of the aforesaid state of war manufacture and sell within the United States arms and munitions of war, and other articles ordinarily known as "contraband of war", yet they cannot carry such articles upon the high seas for the use or service of a belligerent, nor can they transport soldiers and officers of a belligerent, or attempt to break any blockade which may be lawfully established and maintained during the said wars without incurring the risk of hostile capture and the penalties denounced by the law of nations in that behalf.

Contraband of war, etc.

Notice.

And I do hereby give notice that all citizens of the United States and others who may claim the protection of this government, who may misconduct themselves in the premises, will do so at their peril, and that they can in no wise obtain any protection from the government of the United States against the consequences of their misconduct.

In Witness Whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

ROBERT LANSING,
Acting Secretary of State.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

November 13, 1914.

A PROCLAMATION.

Neutrality of Panama Canal Zone, etc. Preamble.

WHEREAS, the United States is neutral in the present war and WHEREAS the United States exercises sovereignty in the land and waters of the Canal Zone and is authorized by its treaty with Panama of February twenty-six nineteen hundred and four, to maintain neutrality in the cities of Panama and Colon, and the harbors adjacent to the said cities:

Vol. 33, p. 2234.

Declaration of rules for maintenance of neutrality of Panama Canal.

NOW, THEREFORE, I, Woodrow Wilson, President of the United States of America, do hereby declare and proclaim the following Rules and Regulations Governing the Use of the Panama Canal by Vessels of Belligerents and the Maintenance of Neutrality by the United States in the Canal Zone, which are in addition to the general "Rules and Regulations for the Operation and Navigation of the Panama Canal and Approaches Thereto, including all Waters under its jurisdiction" put into force by Executive Order of July 9, 1914, and I do bring to the attention of all concerned the Protocol of an Agreement between the United States and the Republic of Panama, signed at Washington, October 10, 1914, which protocol is hereunto annexed.

Executive Orders, No. 1990.

Post, p. 2041.

Vessels of war.

RULE 1. A vessel of war, for the purposes of these rules, is defined as follows: a public armed vessel, under the command of an officer duly commissioned by the government, whose name appears on the list of officers of the military fleet, and the crew of which are under regular naval discipline, which vessel is qualified by its armament and the character of its personnel to take offensive action against the public or private ships of the enemy.

Other vessels of belligerent Powers.

RULE 2. In order to maintain both the neutrality of the Canal and that of the United States, owning and operating it as a government enterprise, the same treatment, except as hereinafter noted, as that given to vessels of war of the belligerents shall be given to every vessel, belligerent or neutral, whether armed or not, that does not fall under the definition of Rule 1, which vessel is employed by a belligerent Power as a transport or fleet auxiliary or in any other way for the direct purpose of prosecuting or aiding hostilities, whether by land or sea; but such treatment shall not be given to a vessel fitted up and used exclusively as a hospital ship.

Permits governing passage through the Canal.

Rule 3. A vessel of war of a belligerent, or a vessel falling under Rule 2 which is commanded by an officer of the military fleet, shall only be permitted to pass through the Canal after her commanding officer has given written assurance to the Authorities of the Panama Canal that the Rules and Regulations will be faithfully observed.

The authorities of the Panama Canal shall take such steps as may be requisite to insure the observance of the Rules and Regulations by

vessels falling under Rule 2 which are not commanded by an officer of the military fleet.

Restriction on revictualing or taking stores.

Rule 4. Vessels of war of a belligerent and vessels falling under Rule 2 shall not revictual nor take any stores in the Canal except so far as may be strictly necessary; and the transit of such vessels through the Canal shall be effected with the least possible delay in accordance with the Canal Regulations in force, and with only such intermission as may result from the necessities of the service.

Prizes.

Prizes shall be in all respects subject to the same Rules as vessels of war of the belligerents.

Issue of fuel and lubricants.

Rule 5. No vessel of war of a belligerent or vessel falling under Rule 2 shall receive fuel or lubricants while within the territorial waters of the Canal Zone, except on the written authorization of the Canal Authorities, specifying the amount of fuel and lubricants which may be received.

Declaration required.

Rule 6. Before issuing any authorization for the receipt of fuel and lubricants by any vessel of war of a belligerent or vessel falling under Rule 2, the Canal Authorities shall obtain a written declaration, duly signed by the officer commanding such vessel, stating the amount of fuel and lubricants already on board.

Rules governing the taking of supplies.

Rule 7. Supplies will not be furnished by the Government of the United States, either directly, or indirectly through the intervention of a corporation, or otherwise, to vessels of war of a belligerent or vessels falling under Rule 2. If furnished by private contractors, or if taken from vessels under the control of a belligerent, fuel and lubricants may be taken on board vessels of war of a belligerent or vessels falling under Rule 2 only upon permission of the Canal Authorities, and then only in such amounts as will enable them, with the fuel and lubricants already on board, to reach the nearest accessible port, not an enemy port, at which they can obtain supplies necessary for the continuation of the voyage. The amounts of fuel and lubricants so received will be deducted from the amounts otherwise allowed in the ports under the jurisdiction of the United States during any time within a period of three months thereafter. Provisions furnished by contractors may be supplied only upon permission of the Canal Authorities, and then only in amount sufficient to bring up their supplies to the peace standard.

Prohibition as to landing troops, etc.

Rule 8. No belligerent shall embark or disembark troops, munitions of war, or warlike materials in the Canal, except in case of necessity due to accidental hindrance of the transit. In such cases the Canal Authorities shall be the judge of the necessity, and the transit shall be resumed with all possible dispatch.

Regulation of vessels of belligerents in territorial waters.

Rule 9. Vessels of war of a belligerent and vessels falling under Rule 2 shall not remain in the territorial waters of the Canal Zone under the jurisdiction of the United States longer than twenty-four hours at any one time, except in case of distress; and in such case, shall depart as soon as possible; but a vessel of war of one belligerent shall not depart within twenty-four hours from the departure of a vessel of an opposing belligerent.

The twenty-four hours of this rule shall be construed to be twenty-four hours in addition to the time necessarily occupied in passing through the Canal.

Number of war vessels present in territorial waters restricted.

Rule 10. In the exercise of the exclusive right of the United States to provide for the regulation and management of the Canal, and in order to ensure that the Canal shall be kept free and open on terms of entire equality to vessels of commerce and of war, there shall not be, except by special arrangement, at any one time a greater number of vessels of war of any one nation, including those of the allies of a belligerent nation, than three in either terminal port and its adjacent terminal waters, or than three in transit through the Canal; nor shall

the total number of such vessels, at any one time, exceed six in all the territorial waters of the Canal Zone under the jurisdiction of the United States.

Determination of order of departure of vessels of belligerents.

Rule 11. When vessels of war or vessels falling under Rule 2, belonging to or employed by opposing belligerents, are present simultaneously in the waters of the Canal Zone, a period of not less than twenty-four hours must elapse between the departure of the vessel belonging to or employed by one belligerent and the departure of the vessel belonging to or employed by his adversary.

The order of departure is determined by order of arrival, unless the vessel which arrived first is so circumstanced that an extension of her stay is permissible.

A vessel of war of a belligerent or vessel falling under Rule 2 may not leave the waters of the Canal Zone until twenty-four hours after the departure of a private vessel flying the flag of the adversary.

Restriction on vessels of belligerents returning to Canal Zone waters.

Rule 12. A vessel of war of a belligerent or vessel falling under Rule 2 which has left the waters of the Canal Zone, whether she has passed through the Canal or not, shall, if she returns within a period of one week after her departure, lose all privileges of precedence in departure from the Canal Zone, or in passage through the Canal, over vessels flying the flag of her adversaries which may enter those waters after her return and before the expiration of one week subsequent to her previous departure. In any such case the time of departure of a vessel which has so returned shall be fixed by the Canal Authorities, who may in so doing consider the wishes of the commander of a public vessel or of the master of a private vessel of the adversary of the returned vessel, which adversary's vessel is then present within the waters of the Canal Zone.

Repairs of vessels in distress.

Rule 13. The repair facilities and docks belonging to the United States and administered by the Canal Authorities shall not be used by a vessel of war of a belligerent, or vessels falling under Rule 2, except when necessary in case of actual distress, and then only upon the order of the Canal Authorities, and only to the degree necessary to render the vessel sea-worthy. Any work authorized shall be done with the least possible delay.

Radio telegraph limitations.

Rule 14. The radio installation of any vessel of a belligerent Power, public or private, or of any vessel falling under Rule 2, shall be used only in connection with Canal business to the exclusion of all other business while within the waters of the Canal Zone, including the waters of Colon and Panama Harbors.

Exclusion of air craft.

Rule 15. Air craft of a belligerent Power, public or private, are forbidden to descend or arise within the jurisdiction of the United States at the Canal Zone, or to pass through the air spaces above the lands and waters within said jurisdiction.

Territory included.

Rule 16. For the purposes of these rules the Canal Zone includes the cities of Panama and Colon and the harbors adjacent to the said cities.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Now, therefore, I, Woodrow Wilson, President of the United States of America, by virtue of the power in me vested by the Act of Congress approved June fourth, eighteen hundred and ninety-seven (30 Stat., 11 at 34 and 36), entitled "An Act Making appropriations for sundry civil expenses of the Government for the fiscal year ending June thirtieth, eighteen hundred and ninety-eight, and for other purposes", do proclaim that the boundaries of the Kern National Forest are hereby changed to exclude the areas indicated as eliminations on the diagram hereto annexed and forming a part hereof.

Excluded lands restored to settlement.

And I do further proclaim and make known that in my judgment it is proper and necessary in the interest of equal opportunity and good administration that all of such excluded lands subject to disposition should be restored to settlement in advance of entry, and pursuant to the authority reposed in me by the aforesaid Act of September thirtieth, nineteen hundred and thirteen, I do hereby direct and provide that such lands, subject to valid rights and the provisions of existing withdrawals, shall be open to actual settlers only under the provisions of the homestead laws for a period of twenty-eight days from and including nine o'clock a. m., standard time, on the fifty-sixth day from and after the date hereof, and thereafter to entry and disposition under any and all of the public land laws applicable thereto.

Secretary of State.

January 1, 1915.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA,

A PROCLAMATION.

Copyright. Preamble. Vol. 35, p. 1075.

WHEREAS it is provided by the Act of Congress of March 4, 1909, entitled "An Act to Amend and Consolidate the Acts Respecting Copyright," that the provisions of said Act, "so far as they secure copyright controlling the parts of instruments serving to reproduce mechanically the musical work, shall include only compositions published and copyrighted after the Act goes into effect, and shall not include the works of a foreign author or composer unless the foreign state or nation of which such author or composer is a citizen or subject grants, either by treaty, convention, agreement, or law, to citizens of the United States similar rights":

And whereas it is further provided that the copyright secured by the Act shall extend to the work of an author or proprietor who is a citizen or subject of a foreign state or nation, only upon certain conditions set forth in section 8 of said Act, to wit:

Vol. 35, p. 1077.

(a) When an alien author or proprietor shall be domiciled within the United States at the time of the first publication of his work; or

(b) When the foreign state or nation of which such author or proprietor is a citizen or subject grants, either by treaty, convention, agreement, or law, to citizens of the United States the benefit of copyright on substantially the same basis as to its own citizens, or copyright protection substantially equal to the protection secured to such foreign author under this Act or by treaty; or when such foreign state or nation is a party to an international agreement which provides for reciprocity in the granting of copyright, by the terms of which agreement the United States may, at its pleasure, become a party thereto:

And whereas it is also provided by said section that "The existence of the reciprocal conditions aforesaid shall be determined by the President of the United States, by proclamation made from time to time as the purposes of this Act may require":

And whereas satisfactory official assurance has been given that, by virtue of the authority conferred by the British Copyright Act, 1911, a British Order in Council has been issued of even date with this Proclamation directing:—

1. That "the Copyright Act, 1911, including the provisions as to existing works, shall, subject to the provisions of the said Act and of this Order, apply—

   (a) to literary, dramatic, musical and artistic works the authors whereof were at the time of the making of the works citizens of the United States of America, in like manner as if the authors had been British subjects:

   (b) In respect of residence in the United States of America, in like manner as if such residence had been residence in the parts of His Majesty's dominions to which the said Act extends.

Provided that—

(i) the term of copyright within the parts of His Majesty's dominions to which this Order applies shall not exceed that conferred by the law of the United States of America:

(ii) the enjoyment of the rights conferred by this Order shall be subject to the accomplishment of the conditions and formalities prescribed by the law of the United States of America:

(iii) in the application to existing works of the provisions of Section 24 of the Copyright Act, 1911, the commencement of this Order shall be substituted for the 26th July, 1910, in subsection 1 (b)."

2. That "this Order shall apply to all His Majesty's dominions, colonies and possessions with the exception of those hereinafter named, that is to say:—The Dominion of Canada, The Commonwealth of Australia, The Dominion of New Zealand, The Union of South Africa, Newfoundland."

3. That "this Order shall come into operation on the first day of January, 1915, which day is in this Order referred to as the commencement of this Order.

And the Lords Commissioners of His Majesty's Treasury are to give the necessary Orders accordingly."

Benefits to subjects of Great Britain extended to mechanical musical reproductions.

Colonies excepted.

Vol. 35, p. 1075.

Now, therefore, I, Woodrow Wilson, President of the United States of America, do declare and proclaim that one of the alternative conditions specified in section 8 (b) of the Act of March 4, 1909, now exists and is fulfilled in respect to the subjects of Great Britain and the British dominions, colonies and possessions, with the exception of Canada, Australia, New Zealand, South Africa, and Newfoundland, and that such subjects shall be entitled to all the benefits of section 1 (e) of the said Act, on and after January 1, 1915.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.
